

**Opportunity Title:** Collaborative Intelligent Systems

**Opportunity Reference Code:** ARL-C-CISD-300114

**Organization** DEVCOM Army Research Laboratory

**Reference Code** ARL-C-CISD-300114

**Description About the Research**

Research is needed to analyze and design intelligent systems, including autonomous agents (virtual and physical) and their teaming and interaction with humans. Opportunities at ARL exist in a number of areas including artificial intelligence (AI), machine learning, autonomy, distributed signal processing, human-machine interaction and teaming, and networking. Achieving increasing levels of autonomy in Army systems is a critical step forward for tactical application of mobile agents for sensing, surveillance, situational awareness, localization, and networking. Ensembles of agents will be deployed with human interaction and collaboration, making use of cloud computing, human experts, and knowledge bases.

*ARL Advisor:* Brian Sadler

**About CISD**

The Computational and Information Sciences Directorate (CISD) conducts research in a variety of disciplines relevant to achieving and implementing the so-called digital battlefield. Problems address the sensing, distribution, analysis, and display of information in the modern battle space. CISD research focuses on four major areas: communications, atmospheric modeling, battlefield visualization, and computing

**About ARL-RAP**

The [Army Research Laboratory Research Associateship Program](#) (ARL-RAP) is designed to significantly increase the involvement of creative and highly trained scientists and engineers from academia and industry in scientific and technical areas of interest and relevance to the Army. Scientists and Engineers at the CCDC Army Research Laboratory (ARL) help shape and execute the Army's program for meeting the challenge of developing technologies that will support Army forces in meeting future operational needs by pursuing scientific research and technological developments in diverse fields such as: applied mathematics, atmospheric characterization, simulation and human modeling, digital/optical signal processing, nanotechnology, material science and technology, multifunctional technology, combustion processes, propulsion and flight physics, communication and networking, and computational and information sciences.

**A complete application includes:**

- **Curriculum Vitae or Resume**
- **Three References Forms**
  - An email with a link to the reference form will be available in Zintellect to the applicant upon completion of the on-line application. Please send this email to persons you have selected to complete a

**ORAU Pathfinder**

Whether you are just starting your career or already at a senior level, ORAU offers internships, fellowships, research opportunities, and contract positions that can provide you with invaluable experience. Download the ORAU Pathfinder mobile app and find the right opportunity to propel you along your career path!

reference.

- References should be from persons familiar with your educational and professional qualifications (include your thesis or dissertation advisor, if applicable)

- **Transcripts**

- Transcript verifying receipt of degree must be submitted with the application. Student/unofficial copy is acceptable

If selected by an advisor the participant will also be required to write a **research proposal** to submit to the ARL-RAP review panel for :

- Research topic should relate to a specific opportunity at ARL (see [Research Areas](#))
- The objective of the research topic should be clear and have a defined outcome
- Explain the direction you plan to pursue
- Include expected period for completing the study
- Include a brief background such as preparation and motivation for the research
- References of published efforts may be used to improve the proposal

A link to upload the proposal will be provided to the applicant once the advisor has made their selection.

**Questions about this opportunity?** Please email [ARLFellowship@orau.org](mailto:ARLFellowship@orau.org)

**Eligibility  
Requirements**

- **Degree:** Any degree .
- **Academic Level(s):** Any academic level.
- **Discipline(s):**
  - **Computer, Information, and Data Sciences** ([16](#) )
  - **Engineering** ([27](#) )
  - **Mathematics and Statistics** ([10](#) )
  - **Physics** ([16](#) )
