

Opportunity Title: USDA-ARS Hemp Germplasm Resources Internship

Opportunity Reference Code: USDA-ARS-2021-0162

Organization U.S. Department of Agriculture (USDA)

Reference Code USDA-ARS-2021-0162

How to Apply

Connect with ORISE...on the GO! Download the new ORISE GO mobile app in the Apple or Google Play Store to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcript(s) – For this opportunity, an unofficial transcript or copy of the student academic records printed by the applicant or by academic advisors from internal institution systems may be submitted. All transcripts must be in English or include an official English translation. Click [here](#) for detailed information about acceptable transcripts.
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- Two educational or professional recommendations

All documents must be in English or include an official English translation.

Application Deadline 8/5/2021 3:00:00 PM Eastern Time Zone

Description *Applications may be reviewed on a rolling-basis and this posting could close before the deadline.

ARS Office/Lab and Location: A research opportunity is currently available with the U.S. Department of Agriculture (USDA), Agricultural Research Service (ARS), Plant Genetic Resources Unit (PGRU) located in Geneva, New York.

The Agricultural Research Service (ARS) is the U.S. Department of Agriculture's chief scientific in-house research agency with a mission to find solutions to agricultural problems that affect Americans every day from field to table. ARS will deliver cutting-edge, scientific tools and innovative solutions for American farmers, producers, industry, and communities to support the nourishment and well-being of all people; sustain our nation's agroecosystems and natural resources; and ensure the economic competitiveness and excellence of our agriculture. The vision of the agency is to provide global leadership in agricultural discoveries through scientific excellence.

Research Project: Research activities for the proposed project will primarily focus on genetic characterization and management of hemp and selected vegetable genetic resources, including tomato, onion, brassica, celery, asparagus, tomatillo, ground cherry, winter squash, radish, and buckwheat. The selected participant will participate in specific research projects and apply contemporary multidisciplinary science and technology skills to address diverse questions within crop genetic resource conservation. Research topics may include but are not limited to: phenomic and genomic characterization, curation and documentation, and propagation and distribution of genetic resources to diverse stakeholders. The knowledge, experience, methods, and technologies may come from plant genetics, molecular biology and genomics, breeding, computational biology, population and quantitative

ORISE GO

Opportunity Title: USDA-ARS Hemp Germplasm Resources Internship

Opportunity Reference Code: USDA-ARS-2021-0162

genetics, horticulture and/or other related disciplines.

Learning Objectives: The selected participant will learn about hemp germplasm curatorial methods and participate in seed increases, phenotyping, and method development.

Mentor(s): The mentor for this opportunity is Zachary Stansell (zachary.stansell@usda.gov). If you have questions about the nature of the research please contact the mentor(s).

Anticipated Appointment Start Date: August 2, 2021. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for six months, but may be renewed upon recommendation of ARS and is contingent on the availability of funds.

Level of Participation: The appointment is full-time.

Participant Stipend: The participant will receive a monthly stipend commensurate with educational level and experience.

Citizenship Requirements: This opportunity is available to U.S. citizens only.

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and ARS. Participants do not become employees of USDA, ARS, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email USDA-ARS@orau.org and include the reference code for this opportunity.

Qualifications

The qualified candidate should be currently pursuing or have received a bachelor's degree in one of the relevant fields.

Eligibility Requirements

- **Citizenship:** U.S. Citizen Only
- **Degree:** Bachelor's Degree.
- **Discipline(s):**
 - **Life Health and Medical Sciences** (10 👁)
