

Opportunity Title: HHS Drug Pricing Fellowship
Opportunity Reference Code: HHS-ASPE-2022-0038

Organization U.S. Department of Health and Human Services (HHS)

Reference Code HHS-ASPE-2022-0038

How to Apply *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

Application Deadline 3/1/2023 11:59:00 PM Eastern Time Zone

Description ***Applications will be reviewed on a rolling-basis.**

HHS Office and Location: A fellowship opportunity is currently available with the Office of Health Policy within the Office of the Assistant Secretary for Planning and Evaluation (ASPE) at the U.S. Department of Health and Human Services (DHHS) located in Washington, DC. ASPE advises the HHS Secretary on policy development, leads special initiatives, coordinates the Department's evaluation, research and demonstration activities, and manages cross-Department planning activities such as strategic planning, legislative planning, and review of regulations.

Given the COVID-19 pandemic and pending the status of federal telework at the time of appointment, the fellow may be onboarded and participate remotely for a period of time.

ASPE advises the HHS Secretary on policy development, leads special initiatives, coordinates the Department's evaluation, research and demonstration activities, and manages cross-Department planning activities such as strategic planning, legislative planning, and review of regulations.

Research Project: The selected fellow would be mentored by a team of policy, public health, and economic experts who focus on public healthcare-related policies. The fellow would have the opportunity to participate in research on a broad portfolio of analytic projects related to drug pricing, pharmaceutical markets, and CMS health insurance programs covering drugs under Medicare, Medicaid, and the Marketplace, including

Opportunity Reference Code: HHS-ASPE-2022-0038

implementation of the drug pricing provisions of the Inflation Reduction Act. The fellow would assist on Congressionally mandated reports on drug pricing and insurance premiums due every two years under the No Surprises Act. The fellow would assist with tasks such as analyzing Medicare and Medicaid claims data, interpreting the results of such analyses, and identifying policy implications. The fellow may also have the opportunity to participate in qualitative research to inform quantitative findings, such as participating in key informant discussions. The fellow would have the opportunity to develop skills in policy and program analysis, research, and communicating the findings to decision makers and the broader public. In addition to direct mentorship by the ASPE team, the fellow would have the opportunity to meet with federal agency partners whose programs these projects are intended to inform.

Learning Objectives:

- Participating in analyses of data on prescription drug pricing and utilization.
- Developing (if necessary) and maintaining subject matter expertise on one or more topics relevant to the drug pricing portfolio of projects in order to provide review and analysis of relevant clearances, legislation, executive directives, reports, and other documents for policy implications.
- Supporting research and evaluation activities to inform decisions about program improvement, regulations, and/or policy making related to public programs.
- Drafting internal and external correspondence, reports, journal articles, presentations, talking points, and other materials for use by staff, management, and/or senior ASPE leadership in briefing key stakeholders and other leadership, including the HHS Secretary.

Mentor(s): The mentor for this opportunity is Steve Sheingold (steven.sheingold@hhs.gov). If you have questions about the nature of the research please contact the mentor(s).

Anticipated Appointment Start Date: 2022. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of HHS and is contingent on the availability of funds.

Level of Participation: The appointment is full-time.

Participant Stipend: The participant will receive a monthly stipend commensurate with educational level and experience. **A health insurance allowance will be provided.**

Citizenship Requirements: This opportunity is available to U.S. citizens only.

Opportunity Title: HHS Drug Pricing Fellowship

Opportunity Reference Code: HHS-ASPE-2022-0038

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and HHS. Participants do not become employees of HHS, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email HHSrpp@ornl.gov and include the reference code for this opportunity.

Qualifications

The qualified candidate should be currently pursuing or have received a master's or doctoral degree in one of the relevant fields. Degree must have been received within five years of the appointment start date.

Preferred skills:

- Experience designing, planning, conducting, and communicating the results of analytical projects within public health or public policy
- Knowledge of and experience with quantitative research approaches (e.g., statistics, econometrics, epidemiology, health services research)
- Experience in the areas of drug pricing and pharmaceutical markets
- Strong quantitative skills
