

Opportunity Title: HHS COVID-19 and Health Equity Impact Fellowship

Opportunity Reference Code: HHS-ASPE-2022-0042

Organization U.S. Department of Health and Human Services (HHS)

Reference Code HHS-ASPE-2022-0042

How to Apply *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

Application Deadline 3/1/2023 11:59:00 PM Eastern Time Zone

Description ***Applications will be reviewed on a rolling-basis.**

HHS Office and Location: A fellowship opportunity is currently available with the Office of the Assistant Secretary for Planning and Evaluation (ASPE) at the U.S. Department of Health and Human Services (DHHS) located in Washington, DC.

Given the COVID-19 pandemic and pending the status of federal telework at the time of appointment, the fellow may be onboarded and participate remotely for a period of time.

ASPE advises the HHS Secretary on policy development, leads special initiatives, coordinates the Department's evaluation, research and demonstration activities, and manages cross-Department planning activities such as strategic planning, legislative planning, and review of regulations.

Research Project: The selected fellow would be mentored by a team of policy, public health, and economic experts who focus on public healthcare-related policies.

The fellow would have the opportunity to conduct policy research and participate in quantitative data analyses on topics such as analyzing the impact of the COVID-19 pandemic on emergency care services, maternity care, or the HIV population. Other topics the fellow might address include social determinants of health, health equity, and access to health care services for at risk populations. The fellow would assist with tasks such as analyzing Medicare and Medicaid claims data, interpreting the results of such analyses, and identifying policy implications. The

fellow may also have the opportunity to participate in qualitative research to inform quantitative findings, such as participating in key informant discussions. The fellow would have the opportunity to develop skills in policy and program analysis and research. In addition to direct mentorship by the ASPE team, the fellow would have the opportunity to meet with federal agency partners whose programs these projects are intended to inform.

Learning Objectives:

- Developing (if necessary) and maintaining subject matter expertise on one or more topics relevant to the public healthcare safety net such as health centers, maternal health, rural health, HIV, and the healthcare workforce in order to provide review and analysis of relevant clearances, legislation, executive directives, reports, and other documents for policy implications and alignment with HHS priorities.
- Supporting research and evaluation activities to inform decisions about program improvement, regulations, and/or policy making related to public healthcare safety net programs.
- Drafting internal and external correspondence, reports, presentations, talking points, and other materials for use by staff, management, and/or senior ASPE leadership in briefing key stakeholders and other leadership, including the HHS Secretary.

Mentor(s): The mentor for this opportunity is Andre Chappel (andre.chappel@hhs.gov). If you have questions about the nature of the research please contact the mentor(s).

Anticipated Appointment Start Date: 2022. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of HHS and is contingent on the availability of funds.

Level of Participation: The appointment is full-time.

Participant Stipend: The participant will receive a monthly stipend commensurate with educational level and experience. **A health insurance allowance will be provided.**

Citizenship Requirements: This opportunity is available to U.S. citizens only.

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and HHS. Participants do not become employees of HHS, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be

obtained through ORISE.

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email HHSrpp@ora.u.org and include the reference code for this opportunity.

Qualifications

The qualified candidate should be currently pursuing or have received a master's or doctoral degree in one of the relevant fields. Degree must have been received within five years of the appointment start date.

Preferred skills:

- Experience designing, planning, conducting, and communicating the results of analytical projects within public health or public policy
- Knowledge of and experience with quantitative research approaches (e.g., statistics, econometrics, epidemiology, health services research)
- Experience in the areas of maternal health, rural health, emergency care services, or HIV
- Quantitative skills
