

## **Opportunity Title:** CDC Women's Reproductive Health Fellowship **Opportunity Reference Code:** CDC-NCCDPHP-2022-0071

Organization Centers for Disease Control and Prevention (CDC)

#### Reference Code CDC-NCCDPHP-2022-0071

How to Apply Connect with ORISE...on the GO! Download the new ORISE GO mobile app in the Apple App Store or Google Play Store to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts <u>Click here for detailed information about acceptable transcripts</u>
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

# Description \*Applications will be reviewed on a rolling-basis, and this posting will remain open until filled.

**<u>CDC Office and Location</u>**: A research opportunity is available in the Division of Reproductive Health (DRH) Women's Health and Fertility Branch within the National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

The Centers for Disease Control and Prevention (CDC) is one of the major operation components of the Department of Health and Human Services. CDC works to protect America from health, safety and security threats, both foreign and in the U.S. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same.

**Research Project:** The selected participant will train and engage with a multi-state surveillance effort to examine impacts of social determinants of health (SDOH) and health inequities among women and infants. Under the guidance of a mentor, the participant will train while developing professional skills in the following: project coordination, public health, epidemiology, complex survey design and analysis, multiple data systems in maternal and infant health, and attending webinars and seminars, and conferences.

#### Learning Objectives:

- · To develop project coordination skills for analytical projects
- To develop skills for analyzing complex survey data using appropriate statistical software
- To develop technical assistance skills on epidemiology, data analysis and translation
- · To develop a working knowledge of social determinants of health

<u>Anticipated Appointment Start Date</u>: As soon as a qualified candidate is identified. Start date is flexible and will depend on a variety of factors.

#### **OAK RIDGE INSTITUTE** FOR SCIENCE AND EDUCATION

### 💹 ORISE GO

The ORISE GO mobile app helps you stay engaged, connected and informed during your ORISE experience – from application, to offer, through your appointment and even as an ORISE alum!

**Opportunity Title:** CDC Women's Reproductive Health Fellowship **Opportunity Reference Code:** CDC-NCCDPHP-2022-0071

**Appointment Length:** The appointment will initially be for one year, but may be renewed upon recommendation of CDC and is contingent on the availability of funds.

Level of Participation: The appointment is full-time.

**<u>Participant Stipend</u>**: The participant will receive a monthly stipend commensurate with educational level and experience.

<u>Citizenship Requirements</u>: This opportunity is available to U.S. citizens, Lawful Permanent Residents (LPR), and foreign nationals. Non-U.S. citizen applicants should refer to the <u>Guidelines for Non-U.S. Citizens</u> <u>Details page</u> of the program website for information about the valid immigration statuses that are acceptable for program participation.

**ORISE Information:** This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and CDC. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

Questions: Please visit our <u>Program Website</u>. After reading, if you have additional questions about the application process please email <u>ORISE.CDC.NCCDPHP@orau.org</u> and include the reference code for this opportunity.

**Qualifications** The qualified candidate should have received a master's or doctoral degree in one of the relevant fields. Degree must have been received within five years of the appointment start date.

Preferred skills:

- · Experience in epidemiology and statistical methods
- · Experience with complex survey design and data analysis
- · Excellent oral presentation skills
- Strong scientific writing skills
- Strong organizational skills
- Strong skills in statistical software such as SAS and SUDAAN
- Competency in Microsoft applications including Word, Excel, and Outlook
