

Opportunity Title: CDC Environmental Microbiology Fellowship

Opportunity Reference Code: CDC-NCEZID-2022-0099

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-NCEZID-2022-0099

How to Apply *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

Application Deadline 4/14/2022 3:00:00 PM Eastern Time Zone

Description *Applications will be reviewed on a rolling-basis.

CDC Office and Location: A research opportunity is currently available with the Division of Healthcare Quality Promotion (DHQP) within the National Center for Emerging and Zoonotic Infectious Diseases (NCEZID) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

The Clinical and Environmental Microbiology Branch (CEMB) is the laboratory branch in the Division of Healthcare Quality Promotion (DHQP). The mission of DHQP is to protect patients; protect healthcare personnel; and promote safety, quality, and value in both national and international healthcare delivery systems. The Healthcare Environment Applied Research Team (HEART) in CEMB is seeking applications for an ORISE Fellow to train in the Sampling, Persistence, and Transfer Lab.

Research Project: The fellow will join the HEART team to assist/train in performing applied research to understand the role of the healthcare environment in transmission of pathogens in healthcare settings. The fellow will train in development & evaluation of environmental sampling and laboratory processing procedures for detection of pathogens from healthcare environmental surfaces, hands, and water.

Projects will involve training in identification and characterization of healthcare associated infection pathogens and emerging pathogens, and application of molecular tools for characterization of pathogens' antibiotic resistance mechanisms.

Learning Objectives: The fellow will gain experience collaborating with other teams and branches within DHQP and in communicating findings with CDC colleagues and public health partners.

Mentor(s): The mentor for this opportunity is Carrie Whitworth (vyu1@cdc.gov). If you have questions about the nature of the research

Opportunity Title: CDC Environmental Microbiology Fellowship

Opportunity Reference Code: CDC-NCEZID-2022-0099

please contact the mentor(s).

Anticipated Appointment Start Date: As soon as a qualified candidate is identified. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of CDC and is contingent on the availability of funds.

Level of Participation: The appointment is full-time.

Participant Stipend: The participant will receive a monthly stipend commensurate with educational level and experience.

Citizenship Requirements: This opportunity is available to U.S. citizens, Lawful Permanent Residents (LPR), and foreign nationals. Non-U.S. citizen applicants should refer to the [Guidelines for Non-U.S. Citizens Details page](#) of the program website for information about the valid immigration statuses that are acceptable for program participation.

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and CDC. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email ORISE.CDC.NCEZID@ornl.gov and include the reference code for this opportunity.

Qualifications The qualified candidate should have received a master's or doctoral degree in one of the relevant fields (e.g. Microbiology, Biology, Public Health, Laboratory Sciences). Degree must have been received within the past five years.

Preferred skills:

- Familiarity with aseptic technique, standard culturing of bacteria and plating, and performing molecular biology (RT-qPCR)
- Demonstrated organizational and communications skills, including preparation of written materials such as documents and reports
- Demonstrated ability to work efficiently, both independently and as part of a team
- Knowledge of Microsoft Office suite, particularly excel
- Bonus for additional skills in virology and cell culture
