

Opportunity Title: Research Participation Opportunities at the Centers for Disease Control and Prevention (CDC)

Opportunity Reference Code: CDC-General-RPP-2022

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-General-RPP-2022

How to Apply This is an open announcement to collect applications for future research opportunities.

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

If you have questions, send an email to CDCCrpp@orau.org. Please include the reference code for this opportunity in your email.

Description The Oak Ridge Institute for Science and Education (ORISE) Research Participation Programs at the Centers for Disease Control and Prevention (CDC) are educational and training programs designed to provide students and recent graduates opportunities to participate in project-specific CDC research and developmental activities at CDC facilities that are related to CDC's mission. Opportunities include full-time, part-time, and summer appointments.

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and CDC. Initial appointments can vary from three months to one year, but may be renewed upon recommendation of CDC contingent on the availability of funds. The participant will receive a monthly stipend commensurate with educational level and experience. Proof of health insurance is required for participation in this program. The appointments are at CDC in Atlanta, Georgia, as well as other CDC locations. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits.

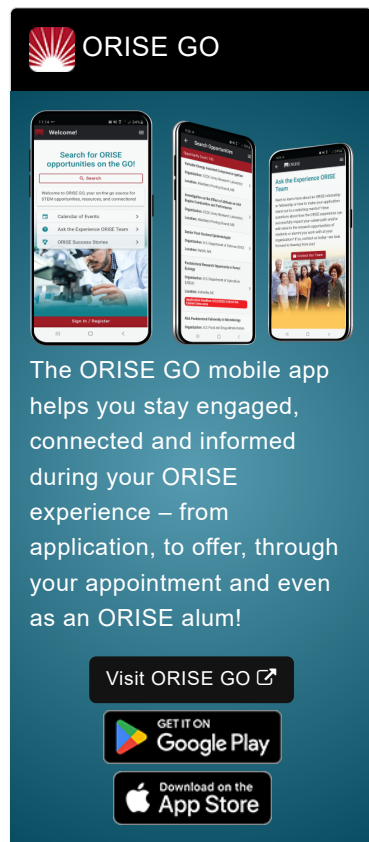

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

For additional information, please go to <http://orise.orau.gov/cdc/> or <http://www.cdc.gov/>.

Qualifications Applicants must be enrolled as an undergraduate, graduate, or doctoral student at an accredited U.S. college or university pursuing a degree in a STEM discipline or have received an undergraduate, graduate, or doctoral degree within five years of the start date of the appointment.

New participants who have a bachelor's degree at the start of the appointment will be limited to a total of five years of participation calculated from the original appointment start date.

Undergraduate students may be in the program for a total of four years while obtaining a bachelor's degree. The four-year maximum will be calculated from the original undergraduate appointment start date, inclusive of breaks in appointment. Once the bachelor's degree is conferred, the individual is eligible for up to five additional years calculated from the new post-bachelor's appointment start date, inclusive of breaks in appointment.

Opportunity Title: Research Participation Opportunities at the Centers for Disease Control and Prevention (CDC)

Opportunity Reference Code: CDC-General-RPP-2022

**Eligibility
Requirements**

- **Degree:** Associate's Degree, Bachelor's Degree, Master's Degree, or Doctoral Degree received within the last 60 months or currently pursuing.
- **Discipline(s):**
 - **Chemistry and Materials Sciences** ([12](#) )
 - **Communications and Graphics Design** ([2](#) )
 - **Computer, Information, and Data Sciences** ([17](#) )
 - **Earth and Geosciences** ([21](#) )
 - **Engineering** ([27](#) )
 - **Environmental and Marine Sciences** ([14](#) )
 - **Life Health and Medical Sciences** ([48](#) )
 - **Mathematics and Statistics** ([11](#) )
 - **Other Non-Science & Engineering** ([2](#) )
 - **Physics** ([16](#) )
 - **Science & Engineering-related** ([2](#) )
 - **Social and Behavioral Sciences** ([28](#) )
