

Opportunity Title: USFS Post-graduate Fellowship in Forest Carbon Research
Opportunity Reference Code: USDA-USFS-2022-0144

Organization U.S. Department of Agriculture (USDA)

Reference Code USDA-USFS-2022-0144

How to Apply *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application package consists of:

- An application
- Transcript(s) – For this opportunity, an unofficial transcript or copy of the student academic records printed by the applicant or by academic advisors from internal institution systems may be submitted. All transcripts must be in English or include an official English translation. Click [Here](#) for detailed information about acceptable transcripts.
- A current resume/CV
- Two educational or professional recommendations. Applications need at least one recommendation submitted in order to be viewed by the mentor.

All documents must be in English or include an official English translation.

Application Deadline 5/30/2022 3:00:00 PM Eastern Time Zone

Description ***Applications will be reviewed on a rolling-basis.**

USFS Office/Lab and Location: A research opportunity is available at the U.S. Department of Agriculture (USDA) Forest Service (USFS), Pacific Northwest Research Station in Wenatchee (WA), Olympia (WA), Corvallis (OR), or LaGrande (OR); telework possible.

At the heart of the U.S. Forest Service's mission is their purpose. Everything they do is intended to help sustain forests and grasslands for present and future generations. Why? Because their stewardship work supports nature in sustaining life. This is the purpose that drives the agency's mission and motivates their work across the agency. It's been there from the agency's very beginning, and it still drives them. To advance the mission and serve their purpose, the U.S. Forest Service balances the short and long-term needs of people and nature by: working in collaboration with communities and our partners; providing access to resources and experiences that promote economic, ecological, and social vitality; connecting people to the land and one another; and delivering world-class science, technology and land management.

The mission of the Forest Service's Pacific Northwest Research Station is to generate and communicate impartial knowledge to help people understand and make informed choices about natural resource management and sustainability.

Opportunity Title: USFS Post-graduate Fellowship in Forest Carbon Research

Opportunity Reference Code: USDA-USFS-2022-0144

Research Project: This research project will look at methods for improving the inclusion of disturbance into forest carbon models in the Pacific Northwest. The participant will summarize current carbon modeling methods for incorporation of disturbance, research improvements for addressing disturbances in forest carbon projections, and engage with a diverse group of interested parties on issues around sequestration of carbon in western forests.

Learning Objectives: Learning opportunities for the participant include increased understanding of forest carbon accounting, disturbance and management interactions, and forest modeling methods. The participant will gain experience in sharing results through the development of publications and presentations.

Mentor: The mentor for this opportunity is Tara Barrett (tara.barrett@usda.gov). If you have questions about the nature of the research please contact the mentor.

Anticipated Appointment Start Date: Summer 2022, or as soon as a qualified candidate is identified. Start date is flexible and negotiable, and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be extended upon recommendation of USFS and is contingent on the availability of funds.

Level of Participation: The appointment is full-time.

Participant Stipend: The participant will receive a monthly stipend ranging from \$5,200-\$5,500, commensurate with educational level and experience.

Citizenship Requirements: This opportunity is available to U.S. citizens and Lawful Permanent Residents (LPR) only.

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and USFS. Participants do not become employees of USDA, USFS, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email USForestService@orise.ornl.gov and include the reference code for this opportunity.

Qualifications The qualified candidate should have received an master's or doctoral degree in one of the relevant fields or be currently

Opportunity Title: USFS Post-graduate Fellowship in Forest Carbon Research

Opportunity Reference Code: USDA-USFS-2022-0144

pursuing the degree with completion by June 30, 2022.

Preferred skills:

- Knowledge of forest ecology and management
- Strong skills in data analysis, programming, and modelling techniques
- Good oral and written communication skills, particularly in communicating science and research results
- Interest in carbon accounting and forest modelling

Eligibility Requirements

- **Citizenship:** LPR or U.S. Citizen
- **Degree:** Master's Degree or Doctoral Degree received within the last 60 months or anticipated to be received by 6/30/2022 12:00:00 AM.
- **Discipline(s):**
 - **Computer, Information, and Data Sciences** (17 👁)
 - **Earth and Geosciences** (21 👁)
 - **Environmental and Marine Sciences** (14 👁)
 - **Life Health and Medical Sciences** (48 👁)
 - **Mathematics and Statistics** (11 👁)
