

Opportunity Title: Aquatic Toxicology Lab Support
Opportunity Reference Code: EPA-NSSC-0010-04-03-15-2022

Organization U.S. Environmental Protection Agency (EPA)

Reference Code EPA-NSSC-0010-04-03-15-2022

How to Apply Click [HERE](#) to Apply

Description The EPA National Student Services Contract has an immediate opening for a full time Aquatic Toxicology Lab Support position with the Office of Research and Development at the EPA facility in Duluth, MN.

The Office of Research and Development at the EPA supports high-quality research to improve the scientific basis for decisions on national environmental issues and help EPA achieve its environmental goals. Research is conducted in a broad range of environmental areas by scientists in EPA laboratories and at universities across the country.

What the EPA project is about

The Center for Computational Toxicology and Exposure (CCTE) supports ORD by providing solutions-driven research to rapidly evaluate the potential human health and environmental risks due to exposures to environmental stressors and ensure the integrity of the freshwater environment and its capacity to support human well-being. CCTE researchers are developing and applying cutting edge innovations in methods to rapidly evaluate chemical toxicity, transport, and exposure to people and environments. Within CCTE, the Great Lakes Toxicology and Ecology Division (GLTED) focuses on freshwater ecotoxicity and freshwater coastal ecology. The Division encompasses traditional and predictive toxicity using advanced scientific tools to produce science to inform ecological risk assessments of chemicals by EPA's Program Offices and Regions.

What experience and skills will you gain?

As a team member, you will assist in one of several aquatic toxicology projects evaluating different aspects of chemical toxicity in aquatic organisms. You will assist in general laboratory activities, which may include one or more of the following: amphibian toxicity testing, enzyme kinetic assays, tissue/cell culture, hormone assay, maintenance of logbooks and chemical records, keeping track of inventories of chemicals and supplies, cleaning of laboratory glassware, and maintaining general cleanliness and function of the lab. In addition, you may be involved in development of new techniques/procedures, writing operating procedures, and performing experiments with established scientists.

Required Knowledge, Skills, Work Experience, and Education

- Experience conducting molecular biology assays.
- Experience conducting cell-free, cell-based, or tissue-based in vitro assays.
- Experience with spreadsheet preparation, data collection, and data analysis.

- Qualifications**
- Be at least 18 years of age **and**
 - Have earned at least a Bachelor's degree in biology, biochemistry, cell biology, molecular biology, toxicology, chemistry, or closely related fields from an accredited university or college within the last 24 months **and**
 - Be a citizen of the United States of America or a Legal Permanent Resident **and**

EPA ORD employees, their spouses, and children are not eligible to participate in this program.

- Eligibility Requirements**
- **Citizenship:** LPR or U.S. Citizen
 - **Degree:** Bachelor's Degree received within the last 24 month(s).
 - **Overall GPA:** 2.00
 - **Discipline(s):**
 - **Chemistry and Materials Sciences** ([12](#) )
 - **Life Health and Medical Sciences** ([48](#) )

Affirmation I certify that I am at least 18 years of age; a recent graduate with at least a Bachelor's degree in biology, biochemistry, cell biology, molecular biology, toxicology, chemistry, or closely related fields of study from an accredited university or college within the last 24 months; a citizen or a Legal Permanent Resident of the United States of America; and not a current employee of EPA ORD or the spouse or child of an EPA ORD employee.
