

**Opportunity Title:** Science Communication Fellowship Opportunity  
**Opportunity Reference Code:** USFS-RD-PNW-2015-0014

**Organization** U.S. Department of Agriculture (USDA)

**Reference Code** USFS-RD-PNW-2015-0014

**How to Apply** A complete application consists of:

- An application
- A current resume/CV
- Transcripts – For this opportunity, an unofficial transcript or copy of the student academic records printed by the applicant or by academic advisors from internal institution systems may be submitted. Selected candidate may be required to provide proof of completion of the degree before the appointment can start. *All documents must be in English or include an official English translation.*

If you have questions, send an email to [usforestservice@orise.ornl.gov](mailto:usforestservice@orise.ornl.gov). Please include the reference code for this opportunity in your email.

**Application Deadline** 11/12/2015 11:59:00 PM Eastern Time Zone

**Description** A postgraduate appointment is available at the U.S. Forest Service Pacific Northwest Research Station (PNW) in Portland, OR. Research has been part of the Forest Service mission since the agency's inception in 1905. Today, over 500 Forest Service researchers work to develop the knowledge and tools that are needed to address the challenges in the management of our Nation's diverse forests and rangelands. PNW is headquartered in Portland but provides research throughout the Pacific Northwest and Alaska Regions.

The participant selected for this project will support science communication efforts for both internal and external audiences.

The participant will help develop research syntheses on a diversity of topics (e.g., northwest forest planning, climate change, urban, wildlife, watershed, recreation, and fire research) and help share this information through website content development, briefing papers, managing SharePoint content, and workshops and webinars. The participant will report to the Assistant Director for Program Development, and would be supported and mentored by a strong research and communications team.

This appointment offers a unique opportunity to participate in the research branch of a federal land management agency with an extensive network of connections across other agencies and partners. The participant will learn about research planning and management and build skills in science delivery, public relations, communications, stakeholder engagement and outreach. In addition, the participant will participate with station scientists from a wide variety of disciplines and could have the opportunity

**Opportunity Title:** Science Communication Fellowship Opportunity

**Opportunity Reference Code:** USFS-RD-PNW-2015-0014

to explore graduate or post-graduate research opportunities.

The appointment will be in the PNW headquarters in Portland, OR.

### **Participant Benefits**

The annual stipend is dependent on experience (range \$40,000-60,000/per year) plus health benefits and a travel/training budget. The appointment is full-time (but 50-75% time is an option) for one year and may be extended based on performance and funding availability.

Housing, transportation and relocation costs will not be paid. Taxes and other federal, state, and local deductions are the responsibility of the participant. The participant must show proof of health insurance. Health insurance is available through Oak Ridge Institute for Science and Education (ORISE). If the participant selects coverage under the ORISE policy, a supplement to the stipend may be provided to offset a portion of this expense.

### **Nature of the Appointment**

The participant will not enter into an employee/employer relationship with ORISE, ORAU, USFS, or any other office or agency. Instead, the participant will be affiliated with ORISE for the administration of the appointment through the ORISE appointment letter and Terms of Appointment.

*ORAU will not discriminate against any employee or applicant for employment because of race, color, age, religion, sex, sexual orientation, gender identity, national origin, mental or physical disability, covered veteran's status, or genetic information.*

**Qualifications** A recent BS or MS in natural or social science with a focus on natural resource management.

Additional minimum desired experience in:

- Strong written and verbal skills
- Communication techniques and technology (e.g., SharePoint, WebEx, Social Media)
- Design and development of outreach materials (website design and management, briefing papers, presentation or publishing software)

Plus factors include:

- Graphic design
- Social media
- Synthesis of complex scientific information

**Eligibility** • **Degree:** Bachelor's Degree or Master's Degree received
