All documents must be in English or include an official English translation.

Application Deadline 6/20/2022 3:00:00 PM Eastern Time Zone

Description ***Applications will be reviewed on a rolling-basis.**

A fellowship opportunity is currently available in the Office of the Associate Director for Communication within the Center for Global Health (CGH) at the Centers for Disease Control and Prevention (CDC) located in Atlanta, Georgia.

The Centers for Disease Control and Prevention (CDC) is one of the major operation components of the Department of Health and Human Services. CDC works to protect America from health, safety and security threats, both foreign and in the U.S. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same.

For more than 60 years, CDC has used its scientific expertise to help people throughout the world live healthier, safer, longer lives. CDC's Center for Global Health coordinates and manages the agency's resources and expertise to address global challenges such as HIV/AIDS, malaria, emergency and refugee health, non-communicable diseases, injuries, and more.

Research Project: The CDC CGH's Office of the Associate Director for Communication advances CGH's global health priorities by raising the visibility of CGH's work among key audiences, and building capacity of internal and external stakeholders and to tell CGH's story effectively.

The ORISE Fellow will train with the CGH Office of the Associate Director for Communication (ADC) and will gain communication skills and experience. The training participant will develop communication skills that can be applied in a variety of public health settings, including: use of plain language; writing for internal and external audiences, understanding how to develop content for various channels, and communication strategy and

Affirmation I certify that I have not previously been employed by CDC or by a contractor working directly for CDC. I understand that CDC does not permit individuals with a prior employment relationship with CDC or its contractors to participate as trainees in the ORISE program. (Exceptions may be granted for individuals who, since the previous CDC employment, have obtained a new STEM degree which necessitates training in a new field.)
