

Opportunity Title: CDC Child Development & Disability Branch Fellowship - Surveillance Team
Opportunity Reference Code: CDC-NCBDDD-2022-0299

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-NCBDDD-2022-0299

How to Apply *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts – Click [here](#) for detailed information about acceptable transcripts
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

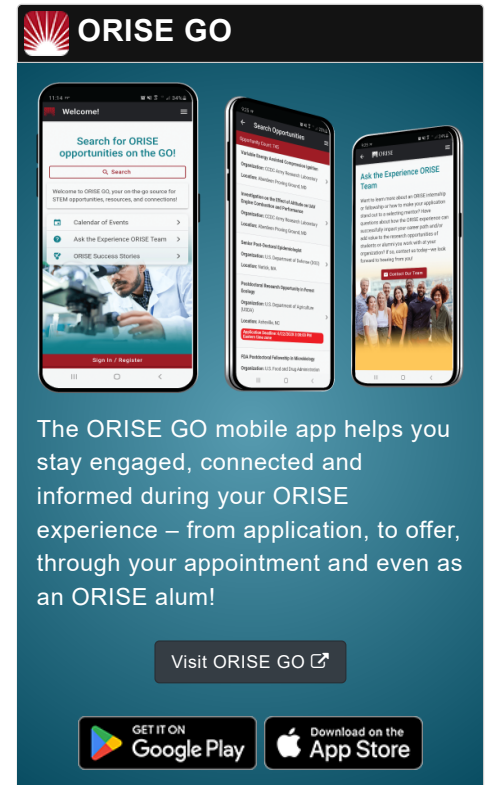

Application Deadline 11/7/2022 3:00:00 PM Eastern Time Zone

Description ***Applications will be reviewed on a rolling-basis.**

CDC Office and Location: A research opportunity is currently available with the Child Development and Disability Branch (CDDDB) of the Division of Human Development and Disability (DHDD), National Center on Birth Defects and Developmental Disabilities (NCBDDD) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

Research Project: The National Center on Birth Defects and Developmental Disabilities (NCBDDD) seeks to promote the health of babies, children, and adults with disabilities. The work of NCBDDD includes identifying the causes of birth defects and developmental disabilities, helping children to develop and reach their full potential, and promoting health and well-being among people of all ages with disabilities. NCBDDD has three Divisions that carry out this mission: Division of Congenital and Developmental Disorders (DCDD), Human Development and Disability (DHDD), and Blood Disorders (DBD).

Specifically, this opportunity is currently available within DHDD's Child Development and Disability Branch (CDDDB). DHDD leads inclusive programs to optimize the health and development of children and adults with or at risk for disabilities. The Child Development and Disability Branch (CDDDB) leads inclusive programs, surveillance, and research to optimize the health and development of children with, or at risk for, developmental delays, disorders, or disabilities which affect 1 in 6 U.S. children. The surveillance team collaborates with external partners in multiple communities across the U.S. to monitor the prevalence

Surveillance Team

Opportunity Reference Code: CDC-NCBDDDD-2022-0299

and early identification of autism spectrum disorder (ASD) among children through CDC's Autism and Developmental Disabilities Monitoring (ADDM) Network. The team also operates an ADDM site in metropolitan Atlanta. In addition to producing the go-to estimate for ASD prevalence in U.S. communities, the ADDM Network produces key data on other developmental disabilities, co-occurring conditions, and disparities in community practices. To improve early identification of developmental disabilities and better understand service needs, the team also analyzes vital records, surveys, and other administrative data, and collaborates with the Learn the Signs. Act Early program.

Learning Objectives: Under the guidance of mentors from the Surveillance Team, the participant will train on the following projects and activities:

- Draw upon public health training and experience and contribute to various elements of the DHDD/CDDDB activities, such as public health surveillance, scientific translation, programmatic objectives, and writing by supporting activities of the Autism Developmental Disabilities Monitoring (ADDM) Network and the Metropolitan Atlanta Developmental Disabilities Surveillance Program (MADDSP).
- Acquire scientific knowledge in the field of autism spectrum disorder and other developmental disabilities.
- Receive mentored guidance in the day-to-day activities necessary for a multiple-state surveillance network.
- Engage and learn scientific communication, and critical thinking needed for scientific writing.
- Enhance communications skills through engagement with site partners, participation in project working groups, and assisting with coordination of external review panels for a new notice of funding opportunity.
- Improve surveillance translation skills by compiling data feedback reports for MADDSP partners and assisting with the development of communication materials for the ADDM community report.
- Acquire knowledge and assist in program directives, issuances, memorandum, and policy statements for the program.
- Improve coordination skills by tracking, inventorying, and disseminating inquiries for the impending NOFO for ADDM.
- Increase program implementation skills through assistance with program monitoring and evaluation of the public health program.
- Learns and exercises responsibilities necessary for the initiation, administration, and/or close out of grants and cooperative agreements, and the technical assistance needed.
- Assists in the administration of the annual budget and/or requests for funding based on information received from subordinate activities.

Surveillance Team

Opportunity Reference Code: CDC-NCBDDD-2022-0299

Mentor(s): The mentor for this opportunity is Monica Dirienzo (vnz3@cdc.gov). If you have questions about the nature of the research please contact the mentor.

Anticipated Appointment Start Date: September 26, 2022. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of CDC and is contingent on the availability of funds.

Level of Participation: The appointment is full-time.

Participant Stipend: The participant will receive a monthly stipend commensurate with educational level and experience.

Citizenship Requirements: This opportunity is available to U.S. citizens, Lawful Permanent Residents (LPR), and foreign nationals. Non-U.S. citizen applicants should refer to the [Guidelines for Non-U.S. Citizens Details page](#) of the program website for information about the valid immigration statuses that are acceptable for program participation.

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and CDC. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email ORISE.CDC.NCBDDD@orau.org and include the reference code for this opportunity.

Qualifications

The qualified candidate should have received a master's degree in one of the relevant fields (e.g. Epidemiology, Public Health, Health Science). Degree must have been received within five years of the appointment start date.

Preferred skills:

- Public Health background
- Comfortable engaging external partners both national and

 - **Computer, Information, and Data Sciences** (17 👁)
 - **Life Health and Medical Sciences** (48 👁)
 - **Social and Behavioral Sciences** (29 👁)

Affirmation

I certify that I have not previously been employed by CDC or by a contractor working directly for CDC. I understand that CDC does not permit individuals with a prior employment relationship with CDC or its contractors to participate as trainees in the ORISE program. (Exceptions may be granted for individuals who, since the previous CDC employment, have obtained a new STEM degree which necessitates training in a new field.)
