

Opportunity Title: CDC Research Opportunity to Support the Modernization of Health in the United States

Opportunity Reference Code: CDC-NCHS-2022-0330

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-NCHS-2022-0330

How to Apply *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

Application Deadline 11/1/2022 3:00:00 PM Eastern Time Zone

Description ***Applications will be reviewed on a rolling-basis.**

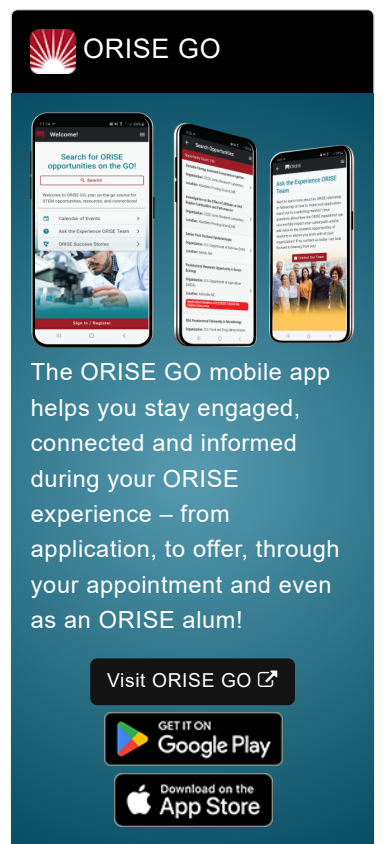

CDC Office and Location: A research opportunity is currently available with the Population Health Reporting & Dissemination Branch (PHRDB) of the Division of Analysis and Epidemiology (DAE), National Center for Health Statistics (NCHS) of the Centers for Disease Control and Prevention (CDC). The appointment is telework-eligible in the Hyattsville, Maryland; Research Triangle Park, North Carolina; or Atlanta, Georgia areas.

The Centers for Disease Control and Prevention (CDC) is one of the major operation components of the Department of Health and Human Services. CDC works to protect America from health, safety and security threats, both foreign and in the U.S. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same.

Research Project: Training activities are to assist with administrative and scientific tasks to support the modernization of *Health, United States* data and the statistical approach to Health US 2022. Potential projects vary depending on skills sets and available time. Most projects involve the evaluation of already-identified data sources (NCHS or outside of NCHS) to update health indicators with the most recent year of data. At the most basic level, a detail oriented candidate could review methodological information for accuracy and use established quality control procedures to ensure that updated data from a variety of sources are correct. More advanced candidates could collaborate with analysts to develop trend analyses and analytic text for a variety of health indicators as part of the Health, United States, 2022 edition.

Learning Objectives: Under the guidance of mentors, the participant will train on the following activities:

- Conducting literature reviews of public health topics.

Opportunity Title: CDC Research Opportunity to Support the Modernization of Health in the United States

Opportunity Reference Code: CDC-NCHS-2022-0330

- Performing data analyses and reviews of data analyses.
- Enhancing communications skills, including writing and data presentation to a variety of audiences in a variety of formats.
- Contributing to various elements of the PHRDB activities, including the modernization of the *Health, United States* products.

Mentor(s): The mentor for this opportunity is Sheila Franco (sfranco@cdc.gov). If you have questions about the nature of the research please contact the mentor(s).

Anticipated Appointment Start Date: 2022. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of CDC and is contingent on the availability of funds.

Level of Participation: The appointment is part-time or full-time (20-40 hours per week).

Participant Stipend: The participant will receive a monthly stipend commensurate with educational level and experience.

Citizenship Requirements: This opportunity is available to U.S. citizens only.

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and CDC. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email ORISE.CDC.NCHS@orau.org and include the reference code for this opportunity.

Qualifications The qualified candidate should be currently pursuing or have received a bachelor's, master's, or doctoral degree in one of the relevant fields. Degree must have been received within the past five years.

Eligibility Requirements

- **Citizenship:** U.S. Citizen Only
- **Degree:** Bachelor's Degree, Master's Degree, or Doctoral Degree received within the last 60 months or currently pursuing.
- **Discipline(s):**
 - **Life Health and Medical Sciences** ([48](#) )
 - **Mathematics and Statistics** ([11](#) )
 - **Social and Behavioral Sciences** ([29](#) )

Affirmation I certify that I have not previously been employed by CDC or by a contractor working directly for CDC. I understand that CDC does not permit individuals with a prior employment relationship with CDC or its contractors to participate as trainees in the ORISE program. (Exceptions may be granted for individuals who, since the previous CDC employment, have obtained a new STEM degree which necessitates training in a new field.)
