

Opportunity Title: CDC/U.S. NAC Laboratory Safety and Sciences Training Fellowship
Opportunity Reference Code: CDC-CPR-2022-0339

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-CPR-2022-0339

How to Apply *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

Application Deadline 11/28/2022 3:00:00 PM Eastern Time Zone

Description ***Applications will be reviewed on a rolling-basis, and this opportunity will remain open until filled.**

CDC Office and Location: A research opportunity is currently available in the U.S. National Authority for Containment of Poliovirus (U.S. NAC) within the Center for Preparedness and Response (CPR) at the Centers for Disease Control and Prevention (CDC) located in Atlanta, Georgia. **This appointment will require onsite attendance at CDC and telework.**

U.S. NAC is responsible for oversight of poliovirus containment activities in the United States, including management of a national-level survey of facilities working with or storing poliovirus infectious and potentially infectious materials and certification of poliovirus-essential facilities to stringent biosafety and biosecurity standards. U.S. NAC also supports strategic planning and engagement with external partners at country, regional, and global levels, such as PAHO and WHO, to inform and improve containment activities to safeguard the global polio eradication initiative. U.S. NAC staff provide technical assistance, audit laboratories, conduct research and evaluation, and support studies to improve laboratory safety and science for polioviruses. NAC staff come from a range of backgrounds, including microbiology, public health, emergency management, regulatory, communications, statistics, economics, and public policy. Further information about CDC's poliovirus containment work is available at:

<https://www.cdc.gov/cpr/polioviruscontainment/index.htm>

Research Project: NAC is seeking a qualified and motivated

Opportunity Title: CDC/U.S. NAC Laboratory Safety and Sciences Training Fellowship

Opportunity Reference Code: CDC-CPR-2022-0339

candidate for a Laboratory Safety and Sciences Training Fellowship focused on developing skills and experience in conducting research and evaluation of poliovirus laboratory biosafety and containment projects. The fellow will participate under the mentorship of NAC staff to develop skills and experience in designing scientific project proposals, protocols, and data collection tools; cleaning and analyzing data collected in the field; and developing presentations, reports, and manuscripts to disseminate results for poliovirus containment implementation.

Anticipated projects include participation in domestic poliovirus containment field visits and data analysis, development of new scientific proposals to address identified gaps in laboratory safety and containment standards, and communications products.

Learning Objectives: Learning objectives include:

- Improve skills in project design, data collection tool development, and data management and analysis methods
- Build professional networks and applied experience through collaboration with CDC staff and international and country partners in implementation of the WHO Global Action Plan IV standard for poliovirus containment
- Participate in online CDC-offered data collection and analysis trainings
- Participate in domestic field work to support poliovirus containment projects
- Gain experience in development of poliovirus containment products (e.g., presentations, reports, journal manuscripts)

Mentor(s): The mentor for this opportunity is Christy Ottendorfer (uyk0@cdc.gov). If you have questions about the nature of the research please contact the mentor(s).

Anticipated Appointment Start Date: October 2022. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of CDC and is contingent on the availability of funds.

Level of Participation: The appointment is full-time.

Participant Stipend: The participant will receive a monthly stipend commensurate with educational level and experience.

Citizenship Requirements: This opportunity is available to U.S. citizens, Lawful Permanent Residents (LPR), and foreign nationals. Non-U.S. citizen applicants should refer to the [Guidelines for Non-U.S. Citizens Details page](#) of the program website for information about the valid immigration statuses that are acceptable for program participation.

Opportunity Title: CDC/U.S. NAC Laboratory Safety and Sciences Training
Fellowship

Opportunity Reference Code: CDC-CPR-2022-0339

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and CDC. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email ORISE.CDC.CPR@orau.org and include the reference code for this opportunity.

Qualifications

The qualified candidate should be currently pursuing or have received a master's degree in one of the relevant fields. Degree must have been received within five years of the appointment start date.

For field work, applicant must meet agency and site-specific occupational health program requirements, such as proof of vaccination. Anticipated travel: domestic, 10% or less

Preferred skills:

- Prior work experience in microbiological or biomedical laboratories
- Interest in biocontainment and biosecurity
- Ability to collaborate with diverse internal and external partners
- Strong written and verbal communication skills
- Demonstrated experience conducting statistical data analysis
- Prior experience conducting data collection and management

Eligibility Requirements

- **Degree:** Master's Degree received within the last 60 months or currently pursuing.
- **Academic Level(s):** Graduate Students or Post-Master's.
- **Discipline(s):**
 - **Life Health and Medical Sciences** (48 )
 - **Mathematics and Statistics** (11 )
 - **Social and Behavioral Sciences** (29 )

Affirmation

I certify that I have not previously been employed by CDC or by a contractor working directly for CDC. I understand that CDC does not permit individuals with a prior employment relationship with CDC or its contractors to participate as trainees in the
