

Opportunity Title: CDC Quality and Safety Systems Branch Fellowship to Improve Clinical and Public Health Laboratory Practice
Opportunity Reference Code: CDC-CSELS-2022-0383

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-CSELS-2022-0383

How to Apply *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

Application Deadline 1/3/2023 3:00:00 PM Eastern Time Zone

Description ***Applications will be reviewed on a rolling-basis.**

CDC Office and Location: A research opportunity is currently available in the Quality and Safety Systems Branch (QSSB) of the Division of Laboratory Systems (DLS) within the Center for Surveillance, Epidemiology, and Laboratory Services (CSELS) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

The Centers for Disease Control and Prevention (CDC) is one of the major operation components of the Department of Health and Human Services. CDC works to protect America from health, safety and security threats, both foreign and in the U.S. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same.

The Quality and Safety Systems Branch (QSSB) in the Division of Laboratory Systems (DLS), works to advance public health and improve patient outcomes by advancing the quality and safety of clinical and public health testing and practice. QSSB is advancing the integration of laboratory expertise in healthcare and public health systems to improve diagnoses and surveillance systems, respectively. QSSB promotes quality management systems to improve the quality of laboratory testing and the impact of resulting data for public health applications. By advancing the development and adherence to standards, guidelines, and regulations, QSSB works to improve the quality of laboratory testing on national and local levels. QSSB is leading the implementation of bio-risk management systems to improve the safety of laboratory professionals, testing personnel, and the communities they serve. To support all of its goals, QSSB works with state and local partners, other federal agencies, private partnerships, professional organizations, and the public.

Research Project: The ORISE participant will collaborate with subject matter experts in QSSB to support ongoing and new initiatives, tasks,

Opportunity Title: CDC Quality and Safety Systems Branch Fellowship to

Improve Clinical and Public Health Laboratory Practice

Opportunity Reference Code: CDC-CSELS-2022-0383

and/or efforts to improve the quality and safety of clinical and public health testing and practice. Participants will support workgroup(s) related to the improvement of clinical laboratory practice, updating of guidance related to the safety or quality practices in laboratory settings, and other activities in QSSB related to project management.

Learning Objectives: Under the guidance of mentor(s), the participant will train on the following activities:

- Supports DLS priorities related to, clinical and public health laboratories, laboratory quality and safety practices, and gain knowledge of applicable regulation(s), statutes, etc. (e.g., CLIA) governing laboratory testing.
- Engages with federal and non-federal stakeholders (e.g., CMS and APHL) to improve laboratory testing and the quality and safety of clinical and public-health practice.
- Acquires experience leading complex, multi-stakeholder projects that focus on the improvement of laboratory quality and safety practices.
- Engages with subject matter experts with diverse backgrounds, and areas of expertise from the federal and/or public sector.
- Supports additional QSSB quality and safety efforts. This will include but not be limited to data analysis, and project logistics.
- Improves written and oral presentations to varied audiences in sharing innovative ideas and reporting findings

Mentor(s): The mentor for this opportunity is Diego Arambula (ouo4@cdc.gov). If you have questions about the nature of the research please contact the mentor(s).

Anticipated Appointment Start Date: 2022 or early 2023. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of CDC and is contingent on the availability of funds.

Level of Participation: The appointment is full-time.

Participant Stipend: The participant will receive a monthly stipend commensurate with educational level and experience.

Citizenship Requirements: This opportunity is available to U.S. citizens and Lawful Permanent Residents (LPR).

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and CDC. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

Opportunity Title: CDC Quality and Safety Systems Branch Fellowship to Improve Clinical and Public Health Laboratory Practice

Opportunity Reference Code: CDC-CSELS-2022-0383

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email ORISE.CDC.CSELS@orau.org and include the reference code for this opportunity.

Qualifications The qualified candidate should have received a bachelor's, master's, or doctoral degree in one of the relevant fields, or be currently pursuing one of the degrees with completion before December 31, 2022. Degree must have been received within the past five years.

Preferred skills, training, or experience include:

- Individuals with degrees in molecular biology, microbiology, biology, epidemiology, pathology, medical technology, clinical laboratory science, or closely related fields. Public health expertise is not required but highly desired. This degree must be from an educational program from an accrediting body recognized by the U.S. Department of Education (<https://ope.ed.gov/accreditation/>) at the time the degree was obtained.
- Candidates should have excellent oral and written communication skills.
- High-level organizational and analytical skills with attention to detail.

Eligibility Requirements

- **Citizenship:** LPR or U.S. Citizen
- **Degree:** Bachelor's Degree, Master's Degree, or Doctoral Degree received within the last 60 months or anticipated to be received by 12/31/2022 11:59:00 PM.
- **Discipline(s):**
 - **Chemistry and Materials Sciences** ([1](#) )
 - **Life Health and Medical Sciences** ([10](#) )

Affirmation I certify that I have not previously been employed by CDC or by a contractor working directly for CDC. I understand that CDC does not permit individuals with a prior employment relationship with CDC or its contractors to participate as trainees in the ORISE program. (Exceptions may be granted for individuals who, since the previous CDC employment, have obtained a new STEM degree which necessitates training in a new field.)
