

**Opportunity Title:** Impact of Changing World Demographics on Security and Stability

**Opportunity Reference Code:** IC-16-40

**Organization** Office of the Director of National Intelligence (ODNI)

**Reference Code** IC-16-40

**How to Apply** **Create and release your Profile on Zintellect** – Postdoctoral applicants must create an account and complete a profile in the on-line application system. **Please note: your resume/CV may not exceed 2 pages.**

**Complete your application** – Enter the rest of the information required for the IC Postdoc Program Research Opportunity. The application itself contains detailed instructions for each one of these components: availability, citizenship, transcripts, dissertation abstract, publication and presentation plan, and information about your Research Advisor co-applicant.

**Application Deadline** 4/15/2016 6:00:00 PM Eastern Time Zone

**Description** While the population of much of the developing world continues to increase due to persistently high fertility rates, most of the developed world is facing the opposite problem: native populations that are or will be declining and ageing as well. This demographic decline extends to varying extents to other less-developed regions as well, including Latin America and parts of the Middle East. While much attention has been paid on the long-term economic and political impact of this trend, less has been paid on how this will influence intra-regional and international relations. This research would address the impact of demographic changes within affected regions on the international economic, security, and political order.

**Example Approaches:**

Demographic data sources are available through the UN, WHO and World Bank as well as other NGO or think tank open source data on military manpower historical trends and make-up.

Potential Approaches could use any of the above data sets and examine how demographic factors over time or by region could impact:

- The formulation of foreign or security policy, to include adoption of more isolationist policies.
- The potential for greater stability or instability due to ongoing demographic trends
- How demographic trends will drive future military policies, weapons development and proliferation, doctrine, and force structure.

**Eligibility Requirements**

- **Citizenship:** U.S. Citizen Only
- **Degree:** Doctoral Degree.
