

Opportunity Title: USDA-ARS Postdoctoral Fellowship in Agricultural and Mechanical Engineering

Opportunity Reference Code: USDA-ARS-NE-2023-0273

Organization U.S. Department of Agriculture (USDA)

Reference Code USDA-ARS-NE-2023-0273

How to Apply Connect with ORISE...on the GO! Download the new ORISE GO mobile app in the Apple App Store or Google Play Store to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcript(s) For this opportunity, an unofficial transcript or copy of the student academic records printed by the applicant or by academic advisors from internal institution systems may be submitted. All transcripts must be in English or include an official English translation. Click here for detailed information about acceptable transcripts.
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- Two educational or professional recommendations

All documents must be in English or include an official English translation.

Application Deadline 4/26/2024 11:59:00 PM Eastern Time Zone

Description *Applications may be reviewed on a rolling-basis.

ARS Office/Lab and Location: A postdoctoral research opportunity is currently available with the U.S. Department of Agriculture (USDA), Agricultural Research Service (ARS), Beltsville Agricultural Research Center (BARC), Environmental Microbial and Food Safety Laboratory located in Beltsville, Maryland.

The Agricultural Research Service (ARS) is the U.S. Department of Agriculture's chief scientific in-house research agency with a mission to find solutions to agricultural problems that affect Americans every day from field to table. ARS will deliver cutting-edge, scientific tools and innovative solutions for American farmers, producers, industry, and communities to support the nourishment and well-being of all people; sustain our nation's agroecosystems and natural resources; and ensure the economic competitiveness and excellence of our agriculture. The vision of the agency is to provide global leadership in agricultural discoveries through scientific excellence.

Research Project: The overall goal of this engineering project is to develop nondestructive sensing-based tools and techniques to reduce food safety risks in preharvest and post-harvest production and processing. This project will focus primarily on safety and quality inspection using spectral imaging techniques such as fluorescence, reflectance, and Raman, for authentication of food ingredients and detection of food contaminants, improvement of cleaning and sanitation efficacies in food processing facilities, and pre-harvest in-field detection of animal fecal contamination.

<u>Learning Objectives</u>: Under the guidance of a mentor, the participant will be involved in the following activities:

OAK RIDGE INSTITUTE FOR SCIENCE AND EDUCATION

W ORISE GO

The ORISE GO mobile app helps you stay engaged, connected and informed during your ORISE experience – from application, to offer, through your appointment and even as an ORISE alum!

Opportunity Title: USDA-ARS Postdoctoral Fellowship in Agricultural and Mechanical Engineering **Opportunity Reference Code:** USDA-ARS-NE-2023-0273

- Learn and apply hyperspectral fluorescence, reflectance, and Raman imaging technologies for safety and quality evaluation of agricultural products
- Learn Machine Learning/Artificial Intelligence methods to evaluate hyperspectral image data to assess safety and quality attributes of agricultural products
- Contribute to the development of sensing and instrumentation methods and technologies for rapid safety and quality inspection of agricultural products
- Participate in the design and development of image-based food safety and quality inspection system for applications in bulkprocessing environments
- Present these results at scientific conferences and publish the results of these projects in peer-reviewed scientific journals

<u>Mentors</u>: The mentors for this opportunity are Insuck Baek (<u>insuck.baek@usda.gov</u>) and Jianwei Qin (<u>jianwei.qin@usda.gov</u>). If you have questions about the nature of the research please contact the mentors.

<u>Anticipated Appointment Start Date</u>: October 2023. Start date is flexible and will depend on a variety of factors.

<u>Appointment Length</u>: The appointment will initially be for two years, but may be extended upon recommendation of ARS and is contingent on the availability of funds.

Level of Participation: The appointment is full-time.

<u>Participant Stipend</u>: The participant(s) will receive an annual stipend commensurate with educational level and experience.

<u>Citizenship Requirements</u>: This opportunity is available to U.S. citizens, Lawful Permanent Residents (LPR), and foreign nationals. Non-U.S. citizen applicants should refer to the <u>Guidelines for Non-U.S. Citizens Details</u> page of the program website for information about the valid immigration statuses that are acceptable for program participation.

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and ARS. Participants do not become employees of USDA, ARS, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

Questions: Please visit our <u>Program Website</u>. After reading, if you have additional questions about the application process please email <u>ORISE.ARS.Northeast@orau.org</u> and include the reference code for this opportunity.

Qualifications The qualified candidate should have received a doctoral degree in agricultural or mechanical engineering.

Preferred Skills/Experience:

· A broad understanding of mechanical and agricultural, as well as

Opportunity Title: USDA-ARS Postdoctoral Fellowship in Agricultural and Mechanical Engineering **Opportunity Reference Code:** USDA-ARS-NE-2023-0273

optical and spectroscopic imaging and machine learning techniques for agricultural food product evaluations, is desired.

- Eligibility Degree: Doctoral Degree.
- Requirements Discipline(s):

 - Engineering (<u>6</u> 𝔹)
 - Veteran Status: Veterans Preference, degree received within the last 120 month(s).
