Application Deadline 3/29/2024 3:00:00 PM Eastern Time Zone

Description The Air Force Research Laboratory (AFRL) is offering an internship at Wright Patterson Air Force Base, Ohio.

What will I be doing?

As an Oak Ridge Institute for Science and Education (ORISE) participant, you will join a community of scientists and researchers at the Air Force Research Laboratory and conduct experiments that provide insight about how people utilize features of visual imagery for judgment and decision making. The research will involve the use of support tools provided by artificial intelligence to assist in the decision-making process and may involve the use of physiological measures such as eye-tracking.

Why should I apply?

Under the guidance of a mentor, you will gain hands-on experience to complement your education and support your academic and professional goals. You will learn about new domains regarding the relationship between features in visual perception and how artificial intelligence can assist in the decision-making process.

Along the way, you will engage in activities and research in several areas. These include, but are not limited to:

- Designing rigorous experimental paradigms
- Software development
- Learning about institution review board protocols
- Participating and contributing to individual and group meetings
- Collecting and analyzing data
- Adhering to ethical and health safety protocols
- Sharing research findings through publications and presentations

Where will I be located?

You will participate in data collection efforts at Wright-Patterson Air Force Base or a nearby university (Wright State University).

What is the anticipated start date?

Exact start dates will be determined at the time of selection and in coordination with the selected candidate. Applications are reviewed on an ongoing basis and internships or fellowships will be filled as qualified candidates are identified.

What is the appointment length?

This appointment is a twelve-month research appointment, with the possibility to be renewed for additional research periods. Appointments may be extended depending on funding availability, project assignment, program rules, and availability of the participant.
