

Opportunity Title: Data Research Engineer Fellow - Master's level

Opportunity Reference Code: DTRA-2024-0002

Organization U.S. Department of Defense (DOD)

Reference Code DTRA-2024-0002

How to Apply Click on *Apply* at the bottom of the opportunity to start your application.

Description The Test and Assessment Department of the Research and Development Directorate for the Defense Threat Reduction Agency (DTRA) is offering a master's level internship opportunity in operations research and systems engineering.

What will I be doing and why should I apply?

As an ORISE participant, you will join a community of scientists and researchers, engaging in planning and accomplishing research projects in the Test and Assessment Department of the Research and Development Directorate - Test Support, Sensitive Assessment Division, Diagnostic Branch at DTRA. The Diagnostics Branch is responsible for providing technical assurance and instrumentation support on assessments of advanced military technologies. As an intern, you'll be exposed to cutting edge technologies and have a role in equipment fielding decisions across the DoD. Under the guidance of a mentor, you will engage in activities and research in several areas, including:

- Data analysis to support RD-TSX assessments for client requirements.
- Developing assessment plans.
- Collaborating with analysts to analyze collected data and draft data presentation and information for client reports.

Where will I be located?

Albuquerque, New Mexico

What is the anticipated start date?

The Test and Assessment Department of the Research and Development Directorate for DTRA is ready to make appointments immediately. Exact start dates will be determined at the time of selection and in coordination with the selected candidate. Applications are reviewed on an ongoing basis and internships or fellowships will be filled as qualified candidates are identified.

What is the appointment length?

This appointment is a full-time, twelve-month research appointment, with the possibility to be renewed for additional research periods. Appointments may be extended depending on funding availability, project assignment, program rules, and availability of the participant.

What are the benefits?

You will receive a stipend to be determined by DTRA. Stipends are typically based on a participant's academic standing, discipline, experience, and research facility location. The anticipated stipend range for this opportunity is \$5400-\$5800 per month based on full time participation.

Other benefits may include the following:

- Health Insurance Supplement (Participants are eligible to purchase health insurance through ORISE)
- Relocation/Dislocation Allowance

Opportunity Title: Data Research Engineer Fellow - Master's level

Opportunity Reference Code: DTRA-2024-0002

- Training and Travel Allowance

About DTRA

DTRA provides cross-cutting solutions to enable the Department of Defense, the United States Government, and international partners to deter strategic attack against the United States and its allies; prevent, reduce, and counter WMD and emerging threats; and prevail against WMD-armed adversaries in crisis and conflict. The Research and Development Directorate provides science, technology, and capability development investments that maintain the U.S. military's technological superiority in countering weapons of mass destruction & emerging threats, mitigate the risks of technical surprise, and respond to the warfighters' urgent technical requirements. For more information about the DTRA, please visit <https://www.dtra.mil/>.

About ORISE

This program, administered by Oak Ridge Associated Universities (ORAU) through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and DoD. Participants do not enter into an employee/employer relationship with ORISE, ORAU, DoD or any other office or agency. Instead, you will be affiliated with ORISE for the administration of the appointment through the ORISE appointment letter and Terms of Appointment. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE. For more information, visit the [ORISE Research Participation Program at the U.S. Department of Defense](#).

Qualifications The qualified candidate will have an earned Master's degree in Computer, Information, Data Sciences, Computer and Systems Engineering or related discipline within the past 60 months, or are expected to earn a master's degree in one of these disciplines by May 1, 2024

- Minimum GPA of 3.0 is required.
- Candidate must be at least 21 years of age at the time of application.
- Must be able to obtain and hold a security clearance and pass random drug screening.
- Candidates who are currently students or graduates of an HBCU or MSI are encouraged to apply.

Highly qualified candidates will have:

- Test and Evaluation support and programming knowledge (MATLAB, Python, excel, etc.)
- Ability and desire to learn new equipment and employ to support assessments
- Strong communications skills to explain complex issues to non-technical persons

Application Requirements

A complete application consists of:

- Zintellect Profile
- Educational and Employment History
- Essay Questions (goals, experiences, and skills relevant to the opportunity)
- Resume (PDF)
- Transcripts/Academic Records - For this opportunity, an unofficial transcript or copy of the student academic records printed by the applicant or by academic advisors from internal institution systems may be submitted. [Click here for detailed information about acceptable transcripts](#).
