**CDC Office and Location:** A research opportunity is available in the Centers for Disease Control and Prevention (CDC) located in Atlanta, Georgia.

The Centers for Disease Control and Prevention (CDC) is one of the major operation components of the Department of Health and Human Services. CDC works to protect America from health, safety and security threats, both foreign and in the U.S. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same.

**Research Project:** The Division of Violence Prevention (DVP) in the National Center for Injury Prevention and Control (NCIPC) assists national organizations, state and local health agencies, and other partners to develop, implement, evaluate and disseminate effective violence prevention strategies. DVP's Prevention Practice and Translation Branch oversees DVP's programs and provides program evaluation support and training and technical assistance. It also promotes the dissemination of science and practice-based evidence through translation products.

**Learning Objectives:** The fellow will be engaged in range of learning activities, such as:

- Participating in trainings and discussions related to best practices in evaluation and translation.
- Assisting with the development of translation materials for various CDC/DVP and DoD audiences (e.g., recipients, partners) and other practitioners;
- Collaborating with PPTB and Communications staff to develop various knowledge translation and implementation materials including website
