Application Deadline 10/25/2024 3:00:00 PM Eastern Time Zone

Description ***Applications are reviewed on a rolling-basis.**

ARS Office/Lab and Location: A research opportunity is currently available with the U.S. Department of Agriculture (USDA), Agricultural Research Service (ARS), located in Peoria, Illinois.

The Agricultural Research Service (ARS) is the U.S. Department of Agriculture's chief scientific in-house research agency with a mission to find solutions to agricultural problems that affect Americans every day from field to table. ARS will deliver cutting-edge, scientific tools and innovative solutions for American farmers, producers, industry, and communities to support the nourishment and well-being of all people; sustain our nation's agroecosystems and natural resources; and ensure the economic competitiveness and excellence of our agriculture. The vision of the agency is to provide global leadership in agricultural discoveries through scientific excellence.

Research Project: The National Center for Agricultural Utilization Research performs research to improve agricultural production, food safety and public health, economic development, and environmental quality. This research will enhance the economic viability and competitiveness of U.S. agriculture commodities by expanding domestic and global market opportunities associated with the growing bioeconomy through the development of environmentally friendly, non-food biobased technologies and products. The selected participant will collaborate on the analysis of hemp and other new crops.

Opportunity Title: USDA-ARS Undergraduate Research Internship

Opportunity Reference Code: USDA-ARS-MWA-2024-0294A

Learning Objectives: As a result of this training the participant will improve their skills in organic synthesis, product isolation, product characterization, and determining biobased lubricant properties and performance. The participant will be afforded the opportunity to present their research at professional conferences, in peer-reviewed publications, and through interactions with academic and industrial collaborators.

Mentor(s): The mentor for this opportunity is Steven Cermak (steven.cermak@usda.gov). If you have questions about the nature of the research, please contact the mentor(s).

Anticipated Appointment Start Date: September 2024. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of ARS and is contingent on the availability of funds.

Level of Participation: The appointment is full time.

Participant Stipend: The participant will receive a monthly stipend commensurate with educational level and experience.

Citizenship Requirements: This opportunity is available to U.S. citizens only.

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and ARS. Participants do not become employees of USDA, ARS, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process, please email ORISE.ARS.Midwest@ornl.gov and include the reference code for this opportunity.

Qualifications The qualified candidate should be currently pursuing a bachelor's degree.

- Eligibility Requirements**
- **Citizenship:** U.S. Citizen Only
 - **Degree:** Currently pursuing a Bachelor's Degree.
