

**Opportunity Title:** DOE-STP Office of Policy, Industrial Technologies Strategy Fellow  
**Opportunity Reference Code:** DOE-STP-OP-2024-0005

**Organization** U.S. Department of Energy (DOE)

**Reference Code** DOE-STP-OP-2024-0005

**How to Apply** Click on *Apply* below to start your application.

**This is a continuous posting. Applications will be reviewed and selected as opportunities become available.**

**Description** The U.S. Department of Energy (DOE) Science, Technology and Policy Program is designed to provide opportunities for students, postgraduates, and faculty to participate in programs, projects, and activities at the Department. Fellows will receive hands-on experience that provides an understanding of the mission, operations, and culture of DOE. As a result, fellows will gain deep insight into the federal government's role in the creation and implementation of energy technology policies; apply their scientific, policy and technical knowledge to the development of solutions to issues of importance to the DOE, and continue their education and involvement in areas that support the DOE mission either in a technical or policy-related role.

#### About the Office of Policy

The Department of Energy's (DOE) Office of Policy (OP) is leading analysis and supporting the coordination of joint activities across the research, development, demonstration and deployment (RDD&D) spectrum to reduce emissions in the industrial sector and increase U.S. competitiveness. With 30% of primary energy-related emissions attributable to the industrial sector, the enhanced coordination that the Office of Policy will provide plays an important role in supporting the reduction of U.S. CO2 emissions by 50% by 2030 (compared to 2005 levels) and achieving net-zero carbon emissions by 2050. Industrial subsectors of interest include petrochemicals, chemicals, metals, cement and concrete, pulp and paper, food and beverage. Technology areas of interest include carbon capture, process electrification, energy efficiency, and hydrogen.

The Office of Policy is seeking an Industrial Technologies Strategy Fellow to participate in the overall enhanced coordination of activities across multiple offices within the Department of Energy and with other agencies and external stakeholders. The Industrial Technologies Strategy Fellow will participate alongside the Industrial Technologies Senior Advisor in the Office of Policy under the guidance of the Chairs of the Industrial Technologies Joint Strategy Team from the Office of Manufacturing and Energy Supply Chains, Office of Industrial Efficiency and Decarbonization and the Office of Clean Energy Demonstrations.

#### Fellowship Activities

OP is seeking a talented and passionate fellow interested in supporting strategic, analytic and policy efforts aimed at decarbonizing the industrial sector. You will collaborate closely with multiple staff across DOE—including several former fellows—and will develop a broad understanding of the potential of new technologies and current barriers to technology deployment. This fellowship will last one year, with the opportunity to renew

**Opportunity Title:** DOE-STP Office of Policy, Industrial Technologies Strategy

Fellow

**Opportunity Reference Code:** DOE-STP-OP-2024-0005

for additional years at the discretion of the sponsoring office. You will have the opportunity to learn how to:

- Facilitate the development and implementation of a DOE wide Multi-year Program Plan to align and optimize DOE funding toward key goals in partnership with multiple key DOE offices.
- Facilitate engagement and collaborate with other DOE programs and offices, participating in office-wide or interoffice initiatives, task forces, or tech teams (e.g. the Energy Earthshots and other Joint Strategy Teams).
- Identify and elevate analytical outcomes, identify opportunities and contribute to development and execution of DOE and interagency strategies.
- Review and provide input on technical reports, analysis, roadmaps, research proposals, and other technical documents.
- Participate in preparing and presenting briefings to upper management, external offices, and at conferences.
- Interface with technical, policy, and business leaders from academia, national labs, the private sector, and other government agencies (e.g. through interagency working groups).
- Participate in the planning and execution of workshops, webinars, and other stakeholder events or initiatives.

**Under the guidance of a mentor, learning opportunities include:**

- Utilizing scientific expertise to engage decision-makers in the areas of energy efficiency policy, planning, research, development, and communication for industrial energy efficiency and decarbonization.
- Analyzing technical needs and opportunities, and the potential impacts of program and policy decisions.
- Providing input for analysis and strategic planning on industrial decarbonization and economic opportunities.
- Assessing the potential for commercial deployment of next-generation industrial technologies focused on efficiency and decarbonization.
- Learning to become a technical resource for integrated coordinated planning and programs.
- Engaging with industry, research, academic, and other government stakeholders to define areas of need for decarbonization of the industrial sector.

Through these activities, fellows will participate in establishing and nurturing the critical link between DOE decision-makers and other scientific professionals to support public policy.

**Nature of Appointment**

The participant will not enter into an employee/employer relationship with ORISE, ORAU, DOE, or any other office or agency. Instead, the participant will be affiliated with ORISE for the administration of the appointment through the ORISE letter of appointment and Terms of Appointment

**Opportunity Title:** DOE-STP Office of Policy, Industrial Technologies Strategy

Fellow

**Opportunity Reference Code:** DOE-STP-OP-2024-0005

**Qualifications** Applicants must have completed their Bachelor's, master's, or doctoral degree within the last 5 years. If more than 5 years since the receipt of the degree, the applicant must have an academic background or experience in a relevant field and must be seeking to gain new knowledge/experience in order to expand career opportunities or advance professionally.

Other preferred qualifications include experience with understanding, evaluating, and researching energy-intensive sectors such as chemicals, metals, cement and concrete, pulp and paper, and food and beverage, and/or associated decarbonization technologies with emphases on operational efficiency, economics, and/or sustainability is preferred.

### **How to Apply**

A complete application consists of:

- Zintellect Profile and responses to opportunity specific questions
- Transcripts/Academic Records - For this opportunity, an unofficial transcript or copy of the student academic records printed by the applicant or by academic advisors from internal institution systems may be submitted. Selected candidate may be required to provide proof of completion of the degree before the appointment can start.
- A current resume/CV, including academic history, employment history, and relevant experiences (\*see below for instructions).
- One Recommendation - Applicants are required to provide contact information for one recommender in order to submit the application. You are encouraged to request a recommendation from professionals who can speak to your abilities and potential for success, as well as your scientific capabilities and personal characteristics. Recommendation requests must be sent through the Zintellect application system. Recommenders will be asked to complete a recommendation in Zintellect. Letters of recommendation submitted via email will not be accepted.

*All documents **must** be submitted via Zintellect in order to be considered and must be in English or include an official English translation. Submitted documents must have all social security numbers, student identification numbers, and/or dates of birth removed (blacked out, blackened out, made illegible, etc.) prior to uploading into the application system.*

\*The resume/CV must include the following:

- Basic applicant Information: Name, address, phone, email, and other contact information.
- Work & Research Experience: List all work and research experiences beginning with current or most recent. Include the name of the employer, location, position held, and time period involved.
- Leadership Experience: List experiences (e.g., work, civic, volunteer, research) that demonstrate your leadership skills. Detail your role, type of experience, organization, location, and duration.

**Opportunity Title:** DOE-STP Office of Policy, Industrial Technologies Strategy

Fellow

**Opportunity Reference Code:** DOE-STP-OP-2024-0005

- **Educational History:** List all institutions from which you received or expect to receive a degree, beginning with current or most recent institution. Include the name of the academic institution, degree awarded or expected date of awarded or expected degree, and academic discipline.
- **Honors & Awards:** List in chronological order (most recent first) any awards or public recognitions. Include the name of awarding institution, title of the award or honor, and date of award or honor.

If you have questions, please send an email to [DOE-RPP@orise.orau.gov](mailto:DOE-RPP@orise.orau.gov). Please list the reference code for this opportunity in the subject line of your email: DOE-STP-OP-2024-0005
