

**Opportunity Title:** 2025 DEVCOM ARL Summer Student Experience: Additive Manufacturing for Electronics

**Opportunity Reference Code:** ARL-SSE-2025-EMSS-0008

**Organization** DEVCOM Army Research Laboratory

**Reference Code** ARL-SSE-2025-EMSS-0008

**How to Apply** **Application Deadline: January 12, 2025**

Applications must be submitted in [Zintellect](#).

A complete application includes:

1. **Resume** listing your relevant coursework and lab experience as well as all papers, presentations, or publications you may have authored or co-authored. Include any reprints or abstracts if they are available.
2. **Transcripts** verifying current enrollment in an undergraduate or graduate program at an accredited university or technical institute. Original student copies are acceptable.
3. **Statement of Interest** describing your scientific research experience including lab experience and relevant academic coursework. State how this experience intersects with your personal and professional goals.
4. **Three References** formal reference forms are not required for the Summer Student Experience, but names and contact information for references must be provided. During the review process, ARL Selecting Officials may contact references.

**Application Deadline** 1/12/2025 11:55:55 PM Eastern Time Zone

**Description** **Research Project**

The Additive Manufacturing team within the Electromagnetic Effects Branch works to incorporate new materials with micrometer scale and nanometer scale 3D-printing process with microelectronics chips, interconnects, and packaging to enable novel, conformal, printed-circuit-board-like integration into non-planar form factors. The project will involve tasks related to one or more of the following, subject to candidate skills, interests, and experience: solid modeling, 3D printing, testing related to novel convergent manufacturing and additive manufacturing methods, low-SWaP sensor systems, data analysis, user interfaces, data analysis, and/or artificial intelligence/machine learning techniques for 3D printing part design.

**Advisor Name:** Gabe Smith

**Advisor Email:** gabriel.l.smith12.civ@army.mil

**About Electromagnetic Spectrum Sciences (EMSS)**

Novel approaches to sensing and operating across the entire electromagnetic (EM) environment; counter-sensing across the EM spectrum; protection from EM effects; emerging concepts for RF, radars, and electronic warfare (EW).

**About the ARL-RAP Summer Student Experience (SSE)**

The DEVCOM Army Research Laboratory (ARL) Research Associateship Program (RAP) [Summer Student Experience \(SSE\)](#) is an educational program that allows undergraduate through PhD students and recent bachelor's and master's degree graduates to participate in a paid research experience at a Department of Defense laboratory over the summer break. Participants are paired with scientists and engineers at ARL who are helping to shape and execute the Army's program for meeting the challenge

ORAU Pathfinder

Whether you are just starting your career or already at a senior level, ORAU offers internships, fellowships, research opportunities, and contract positions that can provide you with invaluable experience. Download the ORAU Pathfinder mobile app and find the right opportunity to propel you along your career path!

**Opportunity Title:** 2025 DEVCOM ARL Summer Student Experience: Additive

Manufacturing for Electronics

**Opportunity Reference Code:** ARL-SSE-2025-EMSS-0008

of developing technologies that will support Army forces future operational needs. As a participant in the ARL-RAP SSE, you will be part of high priority research efforts that are broadly supported by [11 research competencies](#). While ARL has identified several specific research topics, the opportunity for general research may also exist under each competency.

**About DEVCOM Army Research Laboratory (ARL) Research Associateship Program (RAP)**

The [Army Research Laboratory Research Associateship Program](#) (ARL-RAP) is designed to significantly increase the involvement of creative and highly trained scientists and engineers from academia and industry in scientific and technical areas of interest and relevance to the Army. Scientists and Engineers at the DEVCOM Army Research Laboratory (ARL) help shape and execute the Army's program for meeting the challenge of developing technologies that will support Army forces in meeting future operational needs by pursuing scientific research and technological developments in diverse fields such as: applied mathematics, atmospheric characterization, simulation and human modeling, digital/optical signal processing, nanotechnology, material science and technology, multifunctional technology, combustion processes, propulsion and flight physics, communication and networking, and computational and information sciences.

**About Army Research Directorate (ARD)**

ARL's [Army Research Directorate \(ARD\)](#) focuses on exploiting concept development, discovery, technology development, and transition of the most promising disruptive science and technology to deliver to the Army fundamentally advantageous science-based capabilities through ARL's 11 research competencies. This intramural research directorate also manages the laboratory's essential research programs, which are flagship research efforts focused on delivering defined outcomes.

**Location(s) of Appointment**

- Adelphi Laboratory Center, Maryland (ALC)

*Tentative Summer Program Dates: May 12, 2025 - August 29, 2025. If selected, you will coordinate your exact participation dates with your Research Advisor.*

For questions about the Summer Student Experience Program, please email [ARLFellowship@orau.org](mailto:ARLFellowship@orau.org).

**Qualifications Preferred Technical Skills**

Good technical communication, data analysis and presentation (using Matlab, Python, and/or Microsoft Excel)

- |                                 |  |
|---------------------------------|--|
| <b>Eligibility Requirements</b> | <ul style="list-style-type: none"><li>• <b>Citizenship:</b> LPR or U.S. Citizen</li><li>• <b>Degree:</b> High School Diploma/GED, Associate's Degree, Bachelor's Degree, Master's Degree, or Doctoral Degree received within the last 12 months or currently pursuing.</li></ul> |
