Opportunity Title: 2025 DEVCOM ARL Summer Student Experience: Advanced Manufacturing Process
Opportunity Reference Code: ARL-SSE-2025-SEM-0005

Organization DEVCOM Army Research Laboratory

Reference Code ARL-SSE-2025-SEM-0005

How to Apply **Application Deadline: January 12, 2025**

Applications must be submitted in Zintellect.

A complete application includes:

1. **Resume** listing your relevant coursework and lab experience as well as all papers, presentations, or publications you may have authored or co-authored. Include any reprints or abstracts if they are available.
2. **Transcripts** verifying current enrollment in an undergraduate or graduate program at an accredited university or technical institute. Original student copies are acceptable.
3. **Statement of Interest** describing your scientific research experience including lab experience and relevant academic coursework. State how this experience intersects with your personal and professional goals.
4. **Three References** formal reference forms are not required for the Summer Student Experience, but names and contact information for references must be provided. During the review process, ARL Selecting Officials may contact references.

Application Deadline 1/12/2025 11:55:55 PM Eastern Time Zone

Description **Research Project**
Convergent Manufacturing (CM) is the term used to describe fabrication of multifunctional devices and structures and can incorporate any number of manufacturing technologies and materials to fabricate these products. CM is expected to revolutionize the design, fabrication and application of electronic packaging and antenna structures. An objective of this project to establish process-material-design relationships for convergent manufacturing of conformal electronics embedded into 3D printed structures. The researcher will: develop feedstock materials, including conductors, dielectrics, and insulators; develop manufacturing processes, such as aerosol deposition, inkjet printing, SLA, FFF, injection molding, ultrasonic welding, robotic milling and drilling, and plasma modification; develop manufacturing parameters to prepare the materials/parts.

Advisor Name: Jian Yu
Advisor Email: jian.h.yu.civ@army.mil

About Science of Extreme Materials (SEM)
Materials and related manufacturing methods focusing on mechanical response and performance extremes, including active, adaptive, and flexible/soft materials; novel manufacturing science for energetic materials.

About the ARL-RAP Summer Student Experience (SSE)
The DEVCOM Army Research Laboratory (ARL) Research Associateship Program (RAP) Summer Student Experience (SSE) is an educational program that allows undergraduate through PhD students and recent bachelor's and master's degree graduates to participate in a paid research

Opportunity Title: 2025 DEVCOM ARL Summer Student Experience: Advanced Manufacturing Process
Opportunity Reference Code: ARL-SSE-2025-SEM-0005

experience at a Department of Defense laboratory over the summer break. Participants are paired with scientists and engineers at ARL who are helping to shape and execute the Army's program for meeting the challenge of developing technologies that will support Army forces future operational needs. As a participant in the ARL-RAP SSE, you will be part of high priority research efforts that are broadly supported by 11 research competencies. While ARL has identified several specific research topics, the opportunity for general research may also exist under each competency.

About DEVCOM Army Research Laboratory (ARL) Research Associateship Program (RAP)
The Army Research Laboratory Research Associateship Program (ARL-RAP) is designed to significantly increase the involvement of creative and highly trained scientists and engineers from academia and industry in scientific and technical areas of interest and relevance to the Army. Scientists and Engineers at the DEVCOM Army Research Laboratory (ARL) help shape and execute the Army's program for meeting the challenge of developing technologies that will support Army forces in meeting future operational needs by pursuing scientific research and technological developments in diverse fields such as: applied mathematics, atmospheric characterization, simulation and human modeling, digital/optical signal processing, nanotechnology, material science and technology, multifunctional technology, combustion processes, propulsion and flight physics, communication and networking, and computational and information sciences.

About Army Research Directorate (ARD)
ARL's Army Research Directorate (ARD) focuses on exploiting concept development, discovery, technology development, and transition of the most promising disruptive science and technology to deliver to the Army fundamentally advantageous science-based capabilities through ARL's 11 research competencies. This intramural research directorate also manages the laboratory's essential research programs, which are flagship research efforts focused on delivering defined outcomes.

Location(s) of Appointment
- Aberdeen Proving Ground, Maryland (APG)

Tentative Summer Program Dates: May 12, 2025 - August 29, 2025. If selected, you will coordinate your exact participation dates with your Research Advisor.
For questions about the Summer Student Experience Program, please email ARLFellowship@orau.org.

Qualifications

Preferred Technical Skills
CAD, AI programing, Python coding, eCAD, CAD/CAM, Robotics

Eligibility Requirements

- **Citizenship:** LPR or U.S. Citizen
- **Degree:** High School Diploma/GED, Associate's Degree, Bachelor's

Opportunity Title: 2025 DEVCOM ARL Summer Student Experience: Advanced Manufacturing Process
Opportunity Reference Code: ARL-SSE-2025-SEM-0005

Degree, Master's Degree, or Doctoral Degree received within the last 12 months or currently pursuing.

- **Overall GPA:** 2.50
- **Academic Level(s):** Associate’s Degree (Journeyman Fellow), Bachelor’s Degree (Journeyman Fellow), Master’s Degree (Journeyman Fellow), or Doctoral Degree (Postdoctoral Fellow).
- **Discipline(s):**
  - **Engineering** (27 👁)
  - **Mathematics and Statistics** (11 👁)
  - **Physics** (16 👁)
- **Age:** Must be 18 years old by 5/1/2025
