If you have questions, send an email to FDArpp@orau.org. Please include the reference code for this opportunity in your email.

Description A research opportunity is available within the Office of Health Communication and Education (OHCE) in the Center for Tobacco Products (CTP) at the U.S. Food and Drug Administration (FDA). CTP aims to protect Americans from tobacco-related death and disease by regulating the manufacture, distribution, and marketing of tobacco products and by educating the public, especially young people, about tobacco products and the dangers their use poses to themselves and others. CTP oversees the Family Smoking Prevention and Tobacco Control Act.

The selected participant will have the opportunity to learn about the Tobacco Control Act and the development and implementation of digital and social media strategies to advance the Center's communications efforts. Activities may include learning about:

- Social media community management, including content development and crisis response strategy.
- Social media platform monitoring and training on response development to activity in conjunction with the mentor and Editorial and Digital Strategy Team staff.
- Social media listening and identifying new and emerging themes in the tobacco landscape as a whole outside of the FDA.
- Sentiment tracking and observing the development of appropriate response recommendations.
- Impact of corporate social media initiatives, which may include training on how to test and analyze different strategies for various audiences and channels.
- Strategic opportunities for engagement based on ongoing monitoring of the tobacco social media landscape.

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and FDA. The initial appointment is for one year, but may be renewed upon recommendation of FDA contingent on the availability of funds. The

participant will receive a monthly stipend commensurate with educational level and experience. Proof of health insurance is required for participation in this program. The appointment is full-time at FDA in the Silver Spring, MD area. Participants do not become employees of FDA or the program administrator, and there are no fringe benefits paid.

Qualifications Applicants must have received a masters degree in a field relevant to digital communications, health communications, health marketing, or public health received within five years of the desired start date, or be currently enrolled in a degree granting program at an accredited U.S. college or university. Experience in social media/digital community management and focus on tobacco prevention and public health education preferred.
