

**Opportunity Title:** Coastal Wetlands Initiative

**Opportunity Reference Code:** EPA-Water-2016-400

**Organization** U.S. Environmental Protection Agency (EPA)

**Reference Code** EPA-Water-2016-400

**How to Apply** A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- Two educational or professional references

All documents must be in English or include an official English translation.

If you have questions, send an email to [EPArpp@oraui.org](mailto:EPArpp@oraui.org). Please include the reference code for this opportunity in your email.

**Description** A postgraduate research training opportunity is available at the U.S. Environmental Protection Agency's (EPA), Office of Water in Washington, DC. The internship will be served with the Office of Wetlands, Oceans, and Watersheds (OWOW).

The participant will be mentored by Wetlands Division staff in the generation, management and analysis of information for the Coastal Wetlands Initiative (<https://www.epa.gov/wetlands/coastal-wetlands>) and may be involved in the following:

- researching the latest science related to wetland stressors and management techniques,
- analyzing coastal wetland loss data,
- developing materials to effectively communicate research and project results, and
- collaborating with a range of partners in efforts to reduce the loss of wetlands in coastal watershed of the United States.

Through this project, the participant will learn how EPA works to protect wetland resources via regulatory and non-regulatory approaches. Specific skills learned through participating in activities on this project include:

- detailed knowledge of wetland stressors, management strategies, and loss trends,
- how to collaborate with partners in accomplishing protection goals,
- use of various data and spatial analysis tools, and
- how to communicate results of scientific analysis to diverse audiences of wetland scientists, managers, and policy makers.

This research training opportunity will provide an exceptional professional development opportunity in a highly collaborative, multidisciplinary environment. The participant will gain an understanding of EPA's Clean

**Opportunity Title:** Coastal Wetlands Initiative  
**Opportunity Reference Code:** EPA-Water-2016-400

Water Act programs and observe how EPA coordinates with States, Tribes, and other federal agencies to meet national water quality and wetland protection goals. S/he will have the opportunity to interact with well-respected wetland managers and scientists from other agencies and across the country. S/he will be involved in writing reports, analyzing data, creating outreach materials, and have opportunities to submit/present research and project results to interagency groups, professional societies and conferences, and wetland publications.

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and EPA.

**Qualifications** Applicants must have received a bachelor's, master's, or doctoral degree in a natural science (e.g., biology, ecology, environmental science) or natural resource management within five years of the desired start date. An understanding of wetland ecology and a background in aquatic science, soil science, hydrology, watershed management, and/or resource conservation/restoration/planning are desirable.

The appointment will be full time for a one year and may be renewed upon the recommendation of EPA and contingent on the availability of funding. The participant will receive a monthly stipend based on level of education. Funding may be made available to reimburse the participant's travel expenses to present the results of his/her research at scientific conferences. No funding will be made available to cover travel costs for pre-appointment visits, relocation costs, tuition and fees, or participant's health insurance. The participant must show proof of health and medical insurance. **The participant does not become an EPA employee.**

The mentor for this project is Jennifer Linn ([linn.jennifer@epa.gov](mailto:linn.jennifer@epa.gov)). The desired start date is November 7, 2016.

- Eligibility Requirements**

- **Citizenship:** U.S. Citizen Only
  - **Degree:** Bachelor's Degree or Master's Degree received within the last 60 month(s).
  - **Academic Level(s):** Post-Bachelor's, Postdoctoral, or Post-Master's.
  - **Discipline(s):**
    - **Earth and Geosciences** ([2](#) )
    - **Environmental and Marine Sciences** ([12](#) )
    - **Life Health and Medical Sciences** ([7](#) )
    - **Social and Behavioral Sciences** ([2](#) )
