

Opportunity Title: Novel analysis of radio occultation measurements for planetary atmosphere studies

Opportunity Reference Code: 0142-NPP-MAR26-JPL-PlanetSci

Organization National Aeronautics and Space Administration (NASA)

Reference Code 0142-NPP-MAR26-JPL-PlanetSci

How to Apply All applications must be submitted in [Zintellect](#)

Please visit the NASA Postdoctoral Program website for application instructions and requirements: [How to Apply | NASA Postdoctoral Program \(orau.org\)](#).

A complete application to the NASA Postdoctoral Program includes:

1. Research proposal
2. Three letters of recommendation
3. Official doctoral transcript documents

Application Deadline 4/2/2026 6:00:59 PM Eastern Time Zone

Description About the [NASA Postdoctoral Program](#)

The [NASA Postdoctoral Program \(NPP\)](#) offers unique research opportunities to highly-talented scientists to engage in ongoing NASA research projects at a NASA Center, NASA Headquarters, or at a NASA-affiliated research institute. These one- to three-year fellowships are competitive and are designed to advance NASA's missions in space science, Earth science, aeronautics, space operations, exploration systems, and astrobiology.

Description:

We invite research proposals to study planetary atmospheres including Venus and Mars through improved processing of past and current radio occultation (RO) measurements. Recent advances in RO methodology have made it possible to enhance the vertical resolution and penetration of the retrieved profiles. Combining data from multiple missions expands the available measurements that can be used to improve our understanding of atmospheric processes through comparison with General Circulation Models (GCMs). Studies that exploit that synergy between RO and other observations (e.g., infrared sounders) are also encouraged.

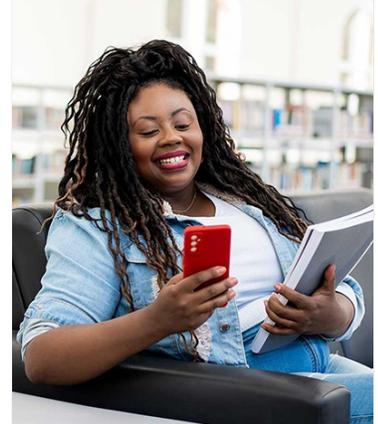

Location:

Jet Propulsion Laboratory
Pasadena, California

Field of Science: Planetary Science

Advisors:

Chi Ao

Opportunity Title: Novel analysis of radio occultation measurements for planetary atmosphere studies

Opportunity Reference Code: 0142-NPP-MAR26-JPL-PlanetSci

Applications with citizens from Designated Countries will not be accepted at this time, unless they are Legal Permanent Residents of the United States. A complete list of Designated Countries can be found at: <https://www.nasa.gov/oiiir/export-control>.

Eligibility is currently open to:

- U.S. Citizens;
- U.S. Lawful Permanent Residents (LPR);
- Foreign Nationals eligible for an Exchange Visitor J-1 visa status; and,
- Applicants for LPR, asylees, or refugees in the U.S. at the time of application with 1) a valid EAD card and 2) I-485 or I-589 forms in pending status
