

Opportunity Title: FDA Computer Science Fellowship

Opportunity Reference Code: FDA-CBER-2026-0004

Organization U.S. Food and Drug Administration (FDA)

Reference Code FDA-CBER-2026-0004

How to Apply *To submit your application, scroll to the bottom of this opportunity and click APPLY.*

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation

All documents must be in English or include an official English translation.

If you have questions, send an email to ORISE.FDA.CBER@orau.org. Please include the reference code for this opportunity in your email.

Application Deadline 5/22/2026 3:00:00 PM Eastern Time Zone

Description *Applications will be reviewed on a rolling-basis.

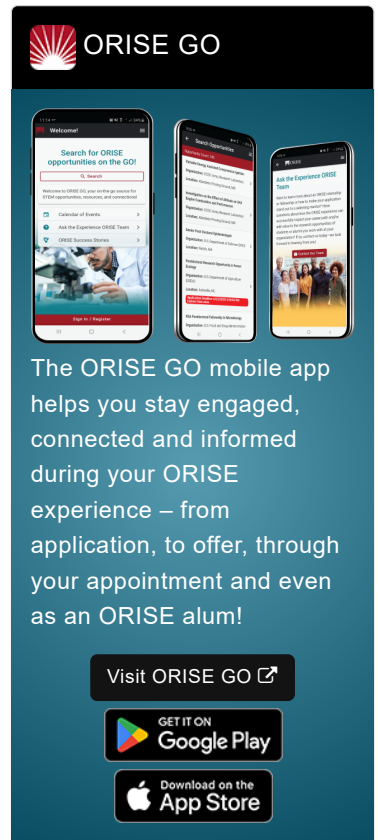

FDA Office and Location: A research opportunity is currently available in the Office of Biostatistics and Pharmacovigilance (OBPV) at the Center for Biologics Evaluation and Research (CBER), Food and Drug Administration (FDA) in Silver Spring, Maryland.

The Center for Biologics Evaluation and Research (CBER) is one Center within the Food and Drug Administration, an Agency within the United States Government's Department of Health and Human Services. CBER's mission is to protect and enhance the public health through the regulation of biological and related products including blood, vaccines, allergenics, tissues, and cellular and gene therapies.

Research Project: The fellow will support the design, development, and enhancement of user-centered web applications and digital platforms supporting scientific, regulatory, and operational programs within CBER. This opportunity focuses on improving usability, accessibility, performance, and visual design of web-based systems that manage scientific and regulatory information. The fellow will collaborate with cross-functional teams to translate complex requirements into intuitive and accessible user interfaces.

Learning Objectives: Under the guidance of a mentor, you will gain skills in and learn to:

- Design and prototype user-centered interfaces for FDA web applications
- Conduct user research (stakeholder interviews, usability testing, user journey mapping)
- Develop responsive and accessible web interfaces using modern front-end frameworks
- Apply Section 508 and WCAG accessibility standards

Opportunity Title: FDA Computer Science Fellowship

Opportunity Reference Code: FDA-CBER-2026-0004

- Improve information architecture and optimize workflows
- Collaborate in Agile environments and contribute to iterative improvements
- Support modernization of legacy systems
- Maintain, test, and enhance existing applications

Mentor: The mentor for this opportunity is Luis Santana-Quintero (luis.santana-quintero@fda.hhs.gov) If you have questions about the nature of the research, please contact the mentor.

Anticipated Appointment Start Date: 2026. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of FDA and is contingent on the availability of funds.

Level of Participation: The appointment is full time.

Participant Stipend: The participant will receive a monthly stipend commensurate with educational level and experience.

Citizenship Requirements: This opportunity is available to U.S. citizens, Lawful Permanent Residents (LPR), and foreign nationals. Non-U.S. citizen applicants should refer to the [Guidelines for Non-U.S. Citizens Details page](#) of the program website for information about the valid immigration statuses that are acceptable for program participation.

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and FDA. The participant will receive a monthly stipend commensurate with educational level and experience. Proof of health insurance is required for participation in this program. Participants do not become employees of FDA, DOE or the program administrator, and there are no employment-related benefits.

Completion of a successful background investigation by the Office of Personnel Management is required for an applicant to be on-boarded at FDA. OPM can complete a background investigation only for individuals, including non-US Citizens, who have resided in the US for a total of three of the past five years.

FDA Ethics Requirements

If an ORISE Fellow, to include their spouse and minor children, reports what is identified as a Significantly Regulated Organization (SRO) or prohibited investment fund financial interest in any amount, or a relationship with an SRO, except for spousal employment with an SRO, and the individual will not voluntarily divest the financial interest or terminate the relationship, then the individual is not placed at FDA. For additional requirements, see [FDA Ethics for Nonemployee Scientists](#).

Opportunity Title: FDA Computer Science Fellowship

Opportunity Reference Code: FDA-CBER-2026-0004

FDA requires ORISE participants to read and sign their FDA Education and Training Agreement within 30 days of his/her start date, setting forth the conditions and expectations for his/her educational appointment at the agency. This agreement covers such topics as the following:

- Non-employee nature of the ORISE appointment;
- Prohibition on ORISE Fellows performing inherently governmental functions;
- Obligation of ORISE Fellows to convey all necessary rights to the FDA regarding intellectual property conceived or first reduced to practice during their fellowship;
- The fact that research materials and laboratory notebooks are the property of the FDA;
- ORISE fellow's obligation to protect and not to further disclose or use non-public information.

Qualifications The qualified candidate should have received a bachelor's, master's, or doctoral degree in one of the relevant disciplines (e.g. UX Design, HCI, Computer Science, Web Development, Information Design, Graphic Design, or related field), or be currently pursuing one of the degrees with completion before the appointment start date. The degree must have been received within 5 years of the appointment start date, or be currently pursuing.

Preferred Skills:

- Background in Mathematics, Computer Science or equivalent experience
- Experience in Linux environment and shell scripting
- Experience with Python, or other OOP languages
- Familiarity with SQL
- Familiarity with HPC environment
- Experience in front-end technologies including (HTML5, CSS, AND JavaScript)
- Experience with modern front-end frameworks such as React, Angular, or Vue
- Knowledge of UI/UX design principles and human-centered design methodologies
