

Opportunity Title: Interband Cascade Optical Frequency Comb Spectroscopy of

C-H Bonds

Opportunity Reference Code: 0177-NPP-NOV26-JPL-PlanetSci

Organization National Aeronautics and Space Administration (NASA)

Reference Code 0177-NPP-NOV26-JPL-PlanetSci

How to Apply All applications must be submitted in [Zintellect](#)

Please visit the NASA Postdoctoral Program website for application instructions and requirements: [How to Apply | NASA Postdoctoral Program \(orau.org\)](#).

A complete application to the NASA Postdoctoral Program includes:

1. Research proposal
2. Three letters of recommendation
3. Official doctoral transcript documents

Application Deadline 11/1/2026 6:00:59 PM Eastern Time Zone

Description About the [NASA Postdoctoral Program](#)

The [NASA Postdoctoral Program \(NPP\)](#) offers unique research opportunities to highly-talented scientists to engage in ongoing NASA research projects at a NASA Center, NASA Headquarters, or at a NASA-affiliated research institute. These one- to three-year fellowships are competitive and are designed to advance NASA's missions in space science, Earth science, aeronautics, space operations, exploration systems, and astrobiology.

Description:

Our team is working on development of new generation of mid-infrared optical frequency combs and mode-locked lasers for future Earth and planetary science missions. These combs, based on a new class of semiconductor lasers, will provide enhanced sensitivity, and higher spectral resolution spectrometers. The postdoctoral researcher will have a unique opportunity to work on different aspects of this new development including but not limited to: (1) Design of the interband cascade lasers; (2) Device microfabrication; (3) Test and characterization and (4) integration into a dual frequency comb spectroscopy instrument.

Applicants should have a recent Ph.D. in electrical engineering, or a closely related field. Experiences with semiconductor laser devices modeling, fabrication and laser spectroscopy are highly desirable.

Applications with citizens from Designated Countries will not be accepted at this time, unless they are Legal Permanent Residents of the United States. A complete list of Designated Countries can be found at: <https://www.nasa.gov/oiir/export-control>.

Eligibility is currently open to:

- U.S. Citizens;
- U.S. Lawful Permanent Residents (LPR);
- Foreign Nationals eligible for an Exchange Visitor J-1 visa status; and,
- Applicants for LPR, asylees, or refugees in the U.S. at the time of application with 1) a valid EAD card and 2) I-485 or I-589 forms in pending status
