

Opportunity Title: Research Associate

Opportunity Reference Code: 0095-NPP-NOV26-JPL-EarthSci

Organization National Aeronautics and Space Administration (NASA)

Reference Code 0095-NPP-NOV26-JPL-EarthSci

How to Apply All applications must be submitted in [Zintellect](#)

Please visit the NASA Postdoctoral Program website for application instructions and requirements: [How to Apply | NASA Postdoctoral Program \(orau.org\)](#).

A complete application to the NASA Postdoctoral Program includes:

1. Research proposal
2. Three letters of recommendation
3. Official doctoral transcript documents

Application Deadline 11/1/2026 6:00:59 PM Eastern Time Zone

Description About the [NASA Postdoctoral Program](#)

The [NASA Postdoctoral Program \(NPP\)](#) offers unique research opportunities to highly-talented scientists to engage in ongoing NASA research projects at a NASA Center, NASA Headquarters, or at a NASA-affiliated research institute. These one- to three-year fellowships are competitive and are designed to advance NASA's missions in space science, Earth science, aeronautics, space operations, exploration systems, and astrobiology.

Description:

We invite applications for a postdoctoral researcher position focused on advancing carbon cycle science by improving carbon cycle simulations using satellite observations and advanced computational techniques.

The successful candidate will utilize a large perturbed parameter ensemble and a machine learning-based emulator developed from the Community Earth System Model to:

1. Quantify and diagnose model biases in ecosystem responses to climatic drivers across different plant functional types and geographic regions;
1. Identify key model parameters responsible for these biases;
1. Constrain these parameters by minimizing mismatches between simulated and observed sensitivities of carbon cycle variables.

Applicants should hold a Ph.D. in Earth science, mathematics, or a related field. Preferred qualifications include experience in terrestrial carbon cycle science, data assimilation, and large-scale Earth system modeling.

Location:

Jet Propulsion Laboratory
Pasadena, California

Whether you are just starting your career or already at a senior level, ORAU offers internships, fellowships, research opportunities, and contract positions that can provide you with invaluable experience. Download the ORAU Pathfinder mobile app and find the right opportunity to propel you along your career path!

Applications with citizens from Designated Countries will not be accepted at this time, unless they are Legal Permanent Residents of the United States. A complete list of Designated Countries can be found at: <https://www.nasa.gov/oiir/export-control>.

Eligibility is currently open to:

- U.S. Citizens;
- U.S. Lawful Permanent Residents (LPR);
- Foreign Nationals eligible for an Exchange Visitor J-1 visa status; and,
- Applicants for LPR, asylees, or refugees in the U.S. at the time of application with 1) a valid EAD card and 2) I-485 or I-589 forms in pending status
