

Opportunity Title: EACE Systematic Review Faculty Fellowship Opportunity

Opportunity Reference Code: EACE-2026-0007-F

Organization U.S. Department of Defense (DOD)

Reference Code EACE-2026-0007-F

How to Apply Click on *Apply* at the bottom of the opportunity to start your application.

Description The Extremity Trauma & Amputation Center of Excellence (EACE) is a unique organization within the Department of War (DoW) consisting of teams of researchers embedded at the point of care within multiple Military Treatment Facilities across the nation. In line with the congressionally directed mission of the EACE, the research efforts undertaken focus on the mitigation, treatment and rehabilitation of traumatic extremity injuries and amputations with a specific focus on translating their findings into clinical practice to improve the care of injured Service members and Veterans. EACE is seeking a faculty fellow to support our mission of mitigating the effects of extremity trauma and amputation. As the selected Fellow, you will engage in evaluating current scientific evidence to advance clinical care and inform the development of Clinical Practice Guidelines (CPGs) for patients with extremity trauma and amputations.

What will I be doing and Why should I apply?

Under the guidance of a designated mentor, you will learn and gain experience in comprehensive systematic and scoping reviews. Your research and analysis will focus on evidence-based medicine initiatives and help shape clinical pathways, rehabilitation protocols, and holistic care strategies for the amputee patient population.

You will have the opportunity to gain experience and engage in the following activities:

- Drafting and registering systematic review protocols (e.g., PROSPERO) outlining search strategies, inclusion/exclusion criteria, and analytical plans.
- Designing and executing robust search strategies across multiple scientific databases (e.g., PubMed, Embase, Cochrane Library).
- Conducting title/abstract and full-text screening using established software platforms, and extract relevant clinical data from selected studies.
- Assessing the risk of bias and methodological quality of included studies using standardized appraisal tools (e.g., Cochrane RoB, GRADE, MINORS).
- Applying qualitative and, where appropriate, quantitative synthesis (meta-analysis) of clinical outcomes related to amputation surgery, prosthetics, rehabilitation, and patient quality of life.
- Preparing technical reports, clinical practice guideline recommendations, and manuscripts for publication in peer-reviewed scientific journals

Where will I be located?

This opportunity is 100% remote.

What is the anticipated start date?

EACE is ready to make appointments immediately. Exact start dates will be determined at the time of selection and in coordination with the selected candidate. Applications are reviewed on an ongoing basis and internships or fellowships will be filled as qualified candidates are identified.

What is the appointment length?

This appointment is a twelve-month research appointment, with the possibility to be renewed for additional research periods. Appointments may be extended depending on funding availability,

project assignment, program rules, and availability of the participant.

What are the provisions?

You will receive a stipend to be determined by EACE. Stipends are typically based on the participant's academic standing, discipline, experience and research facility location. Other provisions may include the following:

- Health Insurance Supplement. Participants are eligible to purchase health insurance through ORISE.
- Training and Travel Allowance

About EACE

[The DoD and VA Extremity Trauma & Amputation Center of Excellence \(EACE\)](#) consists of teams embedded at the point of care within multiple world renown Military Treatment Facilities across the nation. In-line with the congressionally directed mission of the EACE, our clinical team focuses on development of clinical outcomes assessment, clinical practice guidelines, and treatment protocols. We are developing a novel system for extremity trauma outcome measures tracking. We focus on traumatic extremity injuries and amputations with a specific focus on tracking outcomes for clinical assessment to improve the care of injured Service members and Veterans.

About ORISE

This program, administered by Oak Ridge Associated Universities (ORAU) through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and DoW. Participants do not enter into an employee/ employer relationship with ORISE, ORAU, DoW or any other office or agency. Instead, you will be affiliated with ORISE for the administration of the appointment through the ORISE appointment letter and Terms of Appointment. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE. For more information, visit the [ORISE Research Participation Program at the U.S. Department of War](#).

Qualifications The qualified candidate will be a current faculty member at an accredited institution of higher education and possess a PhD in Public Health, Epidemiology or Biometrics and Biostatistics.

Preferred skills:

- Experience in conducting systematic reviews or meta-analyses.
- Familiarity with clinical practice guideline development processes and evidence-grading frameworks (e.g., GRADE).
- Experience with systematic review software (e.g., Covidence, Rayyan) and statistical analysis tools.
- Strong foundational knowledge of clinical terminology, particularly related to orthopedics, trauma, physical medicine, and rehabilitation.
- Excellent scientific writing and communication skills, with a track record of peer-reviewed publications or academic presentations.

Application Requirements

A complete application consists of:

- Zintellect Profile
