

**Opportunity Title:** Forest Research Communications Fellow

**Opportunity Reference Code:** 2017-USFS-BB-2

**Organization** U.S. Department of Agriculture (USDA)

**Reference Code** 2017-USFS-BB-2

**Description** The fellow selected for this project will help early career scientists translate their science and develop communication materials such as briefing papers, web content, presentations, and webinars. Research topics are diverse and will include northwest forest planning, climate change, urban forestry, wildlife, fisheries, watershed, recreation, and fire research. The fellow will report to the Assistant Director for Communications and Applications, and would be supported and mentored by a strong research and communications team.

This fellowship offers a unique opportunity to mentor early career scientists in research planning and management and build skills in science delivery, public relations, communications, stakeholder engagement and outreach.

**Qualifications** A PhD in natural or social science with demonstrated experience in science communication.

Additional minimum requirements for Fellow include:

- Demonstrated successful science communication across multiple disciplines for diverse audiences
- Expertise in design and development of outreach materials (briefing papers, presentation or publishing software)

Preferred requirements or plus factors include:

- Graphic design
- Social media

This fellowship position will work at the U.S. Forest Service Pacific Northwest Research Station (PNW) in Portland, OR. Research has been part of the Forest Service mission since the agency's inception in 1905. Today, over 500 Forest Service researchers work to develop the knowledge and tools that are needed to address the challenges in the management of our Nation's diverse forests and rangelands. PNW is headquartered in Portland but provides research throughout the Pacific Northwest and Alaska Regions.

- Eligibility Requirements**
- **Citizenship:** U.S. Citizen Only
  - **Degree:** Any degree .
