

Opportunity Title: CASPIR Research Cryobiologist Fellowship - CDC

Opportunity Reference Code: CDC-CSELS-2017-0115

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-CSELS-2017-0115

How to Apply A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- Two educational or professional references

All documents must be in English or include an official English translation.

If you have questions, send an email to CDCrpp@orau.org. Please include the reference code for this opportunity in your email.

Description The Center for Surveillance, Epidemiology, and Laboratory Services (CSELS) in the Division of Laboratory System (DLS) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia has an opportunity for an outstanding individual to assist with a cutting edge program that will help shape the future in biorepository science and cryobiology at the CDC and ASTDR Specimen Packaging, Inventory, and Repository (CASPIR) located in Lawrenceville.

The participant will assist management in the development and implementation of a Communication System. In addition, the participant will assist in the evaluation of the CASPIR Operations and provide support for improving the Quality Management System (QMS) improve services and obtain facility accreditation. Opportunities may include:

- Identifying gaps in current QMS through process mapping and internal auditing with the Quality Manager.
- Assisting staff in the SOPs, implementation of procedures, and monitoring communication system.
- Providing feedback to the program on current documentation and quality practices.
- Training with the CASPIR DLS team, learning how to generate new documents, including Standard Operating Procedures, Forms, Guidelines, and additional supporting documentation to strengthen the current library of documentation already in place for biorepository operations.
- Collaborating with the CASPIR Operations Manager, Collections Managers and Science Advisor on all aspects of quality management.
- Researching accreditation programs and presenting findings and recommendation to the CASPIR team to achieve accreditation.

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and CDC. The initial appointment is for one year, but may be renewed
