

Opportunity Title: Surveillance Epidemiology Fellowship--Waterborne Disease

Opportunity Reference Code: CDC-DFWED-2017-0173

- Organization** Centers for Disease Control and Prevention (CDC)
- Reference Code** CDC-DFWED-2017-0173
- How to Apply** A complete application consists of:
- An application
 - Transcripts – [Click here for detailed information about acceptable transcripts](#)
 - A current resume/CV, including academic history, employment history, relevant experiences, and publication list
 - Two educational or professional references

All documents must be in English or include an official English translation.

If you have questions, send an email to CDCCrpp@orau.org. Please include the reference code for this opportunity in your email.

Description A fellowship opportunity is available in the Division of Food and Waterborne Environmental Diseases (DFWED) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

The fellow will be trained in the epidemiologic techniques needed to conduct surveillance for cases of waterborne disease in the United States. The fellow will learn epidemiologic techniques to include various aspects of case surveillance, including how to manage and analyze surveillance data. The training will include how to analyze and interpret case surveillance data for waterborne pathogens to describe epidemiologic patterns and trends and prepare analytic results for publication on websites, fact sheets, and peer-reviewed manuscripts. The fellow will learn how to communicate with state and federal partners on surveillance activities to provide technical assistance and write clear guidance materials. Additional opportunities to develop specific expertise related to waterborne disease outbreak surveillance in untreated recreational water settings (e.g., rivers and lakes) and drinking water systems and to learn about waterborne disease-related issues specific to the Great Lakes region may be offered.

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and CDC. The initial appointment is for one year, but may be renewed upon recommendation of CDC contingent on the availability of funds. The participant will receive a monthly stipend commensurate with educational level and experience. Proof of health insurance

Opportunity Title: Surveillance Epidemiology Fellowship--Waterborne Disease

Opportunity Reference Code: CDC-DFWED-2017-0173

is required for participation in this program. The appointment is full-time at CDC in the Atlanta, Georgia, area. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits.

Qualifications

- MPH degree in epidemiology earned within the past five years.
- Some environmental health training/background desirable.
- Familiarity with SAS statistical software desirable.

**Eligibility
Requirements**

- **Degree:** Master's Degree received within the last 60 month(s).
- **Discipline(s):**
 - **Communications and Graphics Design** (1 )
 - **Life Health and Medical Sciences** (4 )
