

Opportunity Title: Data Journalist Fellow
Opportunity Reference Code: DOT2018-02-1

Organization	U.S. Department of Transportation (DOT)
Reference Code	DOT2018-02-1
How to Apply	<p>A complete application package consists of:</p> <ul style="list-style-type: none"> • An application • Transcript(s) – Click here for detailed information about acceptable transcripts • A current resume/CV • Two references <p>All documents must be in English or include an official English translation.</p> <p>If you have questions, send an email to USDOT@orau.org. Please include the reference code for this opportunity in your email.</p>
Application Deadline	4/21/2018 12:00:00 AM Eastern Time Zone
Description	<p>Are you ready to bring transformative change to Federal information production and distribution techniques? Here is a chance to influence and improve the effectiveness of data at the national level by simplifying complex problems with data and visuals that convey information in new, understandable ways. Take an appointment with our team as we lead the creation of new national transportation data information products in the era of big data, and where you build new stories about transportation and implement innovative analysis through data journalism.</p> <p>The future of transportation datasets holds great promise as well as new challenges. The democratization of data and omnipresence of technology in transportation has created the opportunity for vast new empirical data resources with profound impacts on data velocity, volume and bias. These changes push us, as storytellers, journalists, analysts and statisticians, to rethink our relationship with data. In this 24 hour a day instantaneous information environment, the pressure to deliver fresh data stories is relentless. A constant call to balance the decennial, quinquennial or even annual data releases with near real time data and analysis exists for many data providers. Working in coordination with our Director of Public Affairs and our lead Visual Information Specialist, you will use data journalism to explore opportunities for advancing data and statistical information and you will build new data stories and information products for Bureau of Transportation Statistics (BTS) to publish to the world.</p> <p>You will be using, adapting and transforming data and data analysis to provide new stories about transportation. You will craft aviation, economic, freight, passenger, vehicle, and ship</p>

Opportunity Title: Data Journalist Fellow

Opportunity Reference Code: DOT2018-02-1

data into meaningful information for the public. You will learn to design and build innovative, new stories that capture emerging areas of transportation.

You will have the opportunity to develop close working relationships with other U.S. Department of Transportation (DOT) offices, and other Federal agencies that maintain data and analytical capabilities, which can aid in the understanding of the transportation industry. You will participate in inter-agency efforts relating to the development and improvement of information production and distribution, and you will conduct research on existing and emerging technologies, processes and approaches that can be used to enhance the storytelling of transportation and then implement this research with new products and techniques.

Who are we? We are the U.S. Department of Transportation's Bureau of Transportation Statistics (BTS) Office of Spatial Analysis and Visualization (OSAV). The BTS is the Principal Federal Statistical Agency that provides objective, comprehensive, and relevant information on the extent and use of the Nation's transportation system, how well the system performs, and the effects of the system on society and the environment. BTS is recognized as the pre-eminent source of airline data as well as freight data for the United States.

Stipend: \$75,000

Professional Development: \$2,500

Relocation : \$2,000

Health Insurance stipend: \$3,000

- State date is flexible. You may start anytime from January to June 2018. The selected applicant does not become a DOT employee.

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and USDOT. The appointment is full-time at USDOT in the Washington DC, area. Participants do not become employees of USDOT, DOE or the program administrator, and there are no employment-related benefits.

Qualifications

Applicants must have received bachelor's degree in a related field within the last five years. Preferred disciplines include Data Science, Data Visualization, Geography, Social or Behavioral Science, Computer Science, Information Systems, Mathematics, Statistics, Earth or Geoscience

The ideal candidate will have a combination of the following:

Opportunity Title: Data Journalist Fellow

Opportunity Reference Code: DOT2018-02-1

- Demonstrated ability to transform information and data into articles, blogs, briefs, documents, reports, and similar products that tell a compelling story;
- Demonstrated ability to work with and connect multiple data systems and sources;
- Experience analyzing data to identify patterns and trends;
- Experience presenting results in a clear, effective, and attractive manner to inform next steps;
- Experience with data tools and techniques, including the application of modern programming languages and open source software;
- Strong written and verbal communications skills;
- Ability to work across various offices and work units to obtain information, collaborate on data-related projects, and validate findings and conclusions;
- Ability to work with subject matter experts to identify and mitigate data limitations;
- A self-starter with the ability to perform work with limited supervision and changing outcome goals;
- Knowledge of U.S. transportation systems;
- Experience working with forecast data and information a plus, but is not required; and
- Experience with statistical analysis and econometric modeling a plus, but is not required.

Eligibility Requirements

- **Citizenship:** U.S. Citizen Only
- **Degree:** Bachelor's Degree, Master's Degree, or Doctoral Degree.
- **Discipline(s):**
 - **Communications and Graphics Design** (1 )
 - **Computer, Information, and Data Sciences** (16 )
 - **Earth and Geosciences** (21 )
 - **Environmental and Marine Sciences** (14 )
 - **Life Health and Medical Sciences** (45 )
 - **Mathematics and Statistics** (10 )
 - **Other Non-Science & Engineering** (2 )
 - **Social and Behavioral Sciences** (24 )
