Opportunity Title: Science Information/Analyst Fellowship

Opportunity Reference Code: CDC-NCIPC-2018-0155

Fellow will train with productive staff on engaging topics and has opportunity to touch all phases of the research process and will have the opportunity to develop skills along the research continuum. The Division works on high burden injury topics such as drug overdose, violence, and older adult falls. In addition, the Division works on surveillance, data visualizations, economic analyses, evaluation, programming, and statistics, offering a wide range of public health core competency coverage.

**** Desired Start Date: September 1, 2018 ****

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and CDC. The initial appointment is for one year, but may be renewed upon recommendation of CDC contingent on the availability of funds. The participant will receive a monthly stipend commensurate with educational level and experience. Proof of health insurance is required for participation in this program. The appointment is full-time at CDC in the Atlanta, Georgia, area. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits.

Qualifications • Master's degree in public health or an associated field required

Skills and experience desired, but not required:

- Program evaluation experience
- Knowledge in conducting, interpreting, and reporting results of statistical analyses
- Ability to work effectively across disciplines, community environments, or agencies
- Ability to conduct literature reviews, bibliography compilation, web-searching, MS Excel/Access, citation software (e.g., EndNote), and project tracking.
- Knowledge of statistical software (e.g., SAS, R, SPSS), epidemiology, surveillance, program evaluation, and public health preferred.
- Knowledge of injury prevention, social sciences, and OMB/IRB packages preferred.
