If you have questions, send an email to Army-PHC@orise.orau.gov. Please list the reference code of this opportunity in the subject line of the email.

All documents must be in English or include an official English translation.

Description The mission of United States Army Public Health Center (APHC) is to promote health and prevent disease, injury, and disability of soldiers and military retirees, their families, and Army civilian employees; and assures effective execution of full spectrum veterinary services for Army and DOD veterinary missions. Their vision is to be a world-class provider of public health services across the Army and DOD. For more information about APHC, please visit <https://phc.amedd.army.mil>.

Under the direction of the mentor, chosen candidates will participate as part of a team in the development of classroom and on-line training content/programs for persons involved with hazardous and medical waste management, the packaging and shipment of hazardous and biomedical materials/goods, and the handling and disposal of pharmaceutical waste. Participant may also be involved with the programmatic reviews on various aspects of waste management, disposal, and minimization in medical facilities, deployment scenarios, emergency preparedness, and planning document development/revision. The ORISE candidate will become intimately familiar with the Resource Conservation and Recovery Act and Department of Transportation regulations as these apply to hazardous waste management and the shipment/transportation of the biomedical materials at Department of Defense (DOD) medical facilities and thereby developing their training abilities using both online and face-to-face formats.

Appointment Length

This is a twelve month research appointment and can be extended for additional research terms. Appointments may be extended depending on funding availability, project assignment, program rules, and availability of the participant.

Participant Benefits

Participants will receive a stipend to be determined by APHC. Stipends are typically based on the participant's academic standing, discipline, experience, and research facility location. Other benefits may include the following:

- Health Insurance Supplement. *Participants are eligible to purchase health insurance through*
