If you have questions, send an email to [Army-PHC@orise.ora.gov](mailto:Army-PHC@orise.ora.gov). Please list the reference code of this opportunity in the subject line of the email.

All documents must be in English or include an official English translation.

## Description

The mission of United States Army Public Health Center (APHC) is to promote health and prevent disease, injury, and disability of soldiers and military retirees, their families, and Army civilian employees; and assures effective execution of full spectrum veterinary services for Army and DOD veterinary missions. Their vision is to be a world-class provider of public health services across the Army and DOD. For more information about APHC, please visit <https://phc.amedd.army.mil>.

Under the direction of the mentor, the individual will participate with APHC Injury Prevention Division (IPD) scientific teams to collect and analyze information on injuries, fitness, and related programs centered around members of the Armed Services. The candidate will assist with literature review, study design, data collection (which may require travel), data management, statistical analysis with SAS and SPSS, and production of technical reports, publications, and other products. The candidate should have knowledge of descriptive and analytical statistics and their use in SAS and SPSS. S/he must be able to analyze, interpret, write up, and publicly present results.

## Appointment Length

The opportunity is scheduled for twelve months and can be renewed up to a total of five years of research participation. Appointments may be extended depending on funding availability, project assignment, program rules, and availability of the participant.

## Participant Benefits

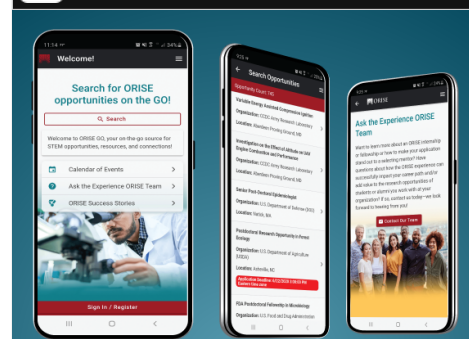

Participants will receive a stipend to be determined by APHC. Stipends are typically based on the participant's academic standing, discipline, experience, and research facility location. Other benefits may include the following:

- Health Insurance Supplement. *Participants are eligible to purchase health*
