

Opportunity Title: CDC Children's Mental Health Epidemiology and Prevention Fellowship

Opportunity Reference Code: CDC-NCBDDD-2019-0083

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-NCBDDD-2019-0083

How to Apply

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

If you have questions, send an email to CDCrpp@orau.org. Please include the reference code for this opportunity in your email.

Application Deadline

12/13/2019 3:00:00 PM Eastern Time Zone

Description

A fellowship opportunity is available with the Child Development and Disability Branch (CDDB), Division of Human Development and Disability (DHDD), within the National Center on Birth Defects and Developmental Disabilities (NCBDDD) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

The selected participant will have the opportunity to train on projects related to children's mental health and early childhood development. This may include collaborating with other scientific staff to implement programs related to children's mental health, neurodevelopment, and overall child development as well as conduct analyses related to the identification and diagnosis of children's mental disorders, associated treatment, costs of service utilization, and other factors related to the epidemiology of children's mental disorders, with a concentration on attention-deficit/hyperactivity disorder (ADHD) and Tourette syndrome. The participant will also be able to gain experience developing summaries of new literature, abstracts and manuscripts for publication in peer-reviewed journals, and presentations at professional meetings. Throughout the fellowship, the participant will have opportunities to collaborate with internal and external scientific researchers, partners, and healthcare providers.

The activities associated with this fellowship will include assisting the Child Development Studies team's efforts to describe aspects of public health impact associated with healthy child development and children's mental health.

Under the guidance of a mentor, the participant will be involved in the following training activities:

- Program implementation research on children's mental health, neurodevelopment, and overall child development
- Program implementation and prevention projects for culturally diverse families
- Research translation products
- Program evaluation analyses
- Epidemiological analyses related to the identification and diagnosis of children's mental disorders, associated treatment, cost of service utilization, and other factors related to children's mental disorders, with a concentration on attention-deficit/hyperactivity disorder (ADHD) and Tourette syndrome
- Literature reviews and authoring publications
- Public health communications documents such as PowerPoint presentations and web materials

Learning Objectives:

By the end of this fellowship year, the participant will have:

1. Trained in public health practices such as communication, data management, data analysis, and project monitoring
2. Gained expertise in epidemiological and/or programmatic prevention efforts related to early childhood development and children's mental health
3. Participated in activities that promote children's mental health and measure its impact on communities and populations
4. Engaged in professional development activities designed to support a career in public health

Opportunity Title: CDC Children's Mental Health Epidemiology and Prevention Fellowship

Opportunity Reference Code: CDC-NCBDDD-2019-0083

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and CDC. The initial appointment can be up to one year, but may be renewed upon recommendation of CDC contingent on the availability of funds. The participant will receive a monthly stipend commensurate with educational level and experience. Proof of health insurance is required for participation in this program. The appointment is full-time at CDC in the Atlanta, Georgia, area. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits.

Anticipated Appointment Start Date: April 2019

Qualifications

The qualified candidate should be currently pursuing or have received a bachelor's, master's or doctoral degree in one of the relevant fields. Degree must have been received within five years of the appointment start date.

Preferred skills:

- Interest in health and medical sciences, social and behavioral sciences
- Strong written and oral communication skills
- Comfortable contributing independently to a defined portion of broader group efforts
- Experience in literature reviews
- Familiarity with research methods and communications
- Awareness of issues related to children's mental health, its assessment, and measurement
- Prior experience with program implementation, program evaluation, or analysis of national survey data, administrative claims data, primary data collected using a complex sampling design, and/or longitudinal data

Eligibility Requirements

- **Degree:** Bachelor's Degree, Master's Degree, or Doctoral Degree received within the last 60 months or currently pursuing.
- **Discipline(s):**
 - **Communications and Graphics Design** (1 )
 - **Environmental and Marine Sciences** (1 )
 - **Life Health and Medical Sciences** (45 )
 - **Mathematics and Statistics** (10 )
 - **Other Non-S&E** (5 )
 - **Social and Behavioral Sciences** (28 )
