

Opportunity Title: NOAA Engineering Internship
Opportunity Reference Code: NOAA-EngIntern-0001

Organization	National Oceanic and Atmospheric Administration (NOAA)
Reference Code	NOAA-EngIntern-0001
How to Apply	Submit application and supporting documents by clicking on Apply Now button.
Description	<p>The Atmospheric Turbulence and Diffusion Division (ATDD), located in Oak Ridge, Tennessee is looking for a graduate level intern to learn and assist with atmospheric research. ATDD's research is focused on <i>air</i> quality, climate, and dispersion-related research directed toward issues of national and global importance.</p> <p>NOAA's paid graduate level engineering internship will occur over the summer of 2019. Interns hired for this position will perform challenging tasks while developing Materials Engineering, Data Analysis, and Weather Forecasting skills. Come be a part of something big and help support the efforts to build and maintain a Weather Ready Nation while gaining valuable knowledge and honing your skills. Did we mention the networking opportunities? You will be working beside experts in your field of study. You will also get hands-on experience in a fast-paced environment as well as get a first-hand learning experience with the foremost experts in climate research.</p> <p>The engineering graduate student will learn to perform the following tasks:</p> <ul style="list-style-type: none"> • Assist in data acquisition from both unmanned aircraft during short-term field deployments • Produce software to facilitate the generation of plots of meteorological data obtained from the aircraft in near-real time • Analyze meteorological datasets obtained from the 2 separate aircraft to help improve scientific understanding of the temporal evolution of temperature, moisture, and wind fields within the lowest 1 km of Earth's atmosphere. This includes, but is not limited to, the study of pre-convective environments, the early morning transition period, early evening transition period, etc.
Qualifications	<ul style="list-style-type: none"> • Be at least 18 years of age and • Have earned a Bachelors Degree in Material Science Engineering or other related degree from an accredited university or college within the last 60 months and

Opportunity Title: NOAA Engineering Internship

Opportunity Reference Code: NOAA-EngIntern-0001

- Be a US citizen or a Legal Permanent Resident.

**Eligibility
Requirements**

- **Citizenship:** LPR or U.S. Citizen
- **Degree:** Bachelor's Degree or Master's Degree received within the last 60 months or anticipated to be received by 5/30/2020 12:00:00 AM.
- **Overall GPA:** 2.00
- **Discipline(s):**
 - **Engineering** (2 )

Affirmation

I certify that I am at least 18 years of age; a recent graduate with a bachelor's degree in Material Science Engineering or other related degree from an accredited university or college; a citizen or a Legal Permanent Resident of the United States of America.
