

Opportunity Title: CDC Infant Nutrition Fellowship
Opportunity Reference Code: CDC-NCCDPHP-2019-0160

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-NCCDPHP-2019-0160

How to Apply A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

If you have questions, send an email to ORISE.CDC.NCCDPHP@orau.org. Please include the reference code for this opportunity in your email.

Application Deadline 7/29/2019 3:00:00 PM Eastern Time Zone

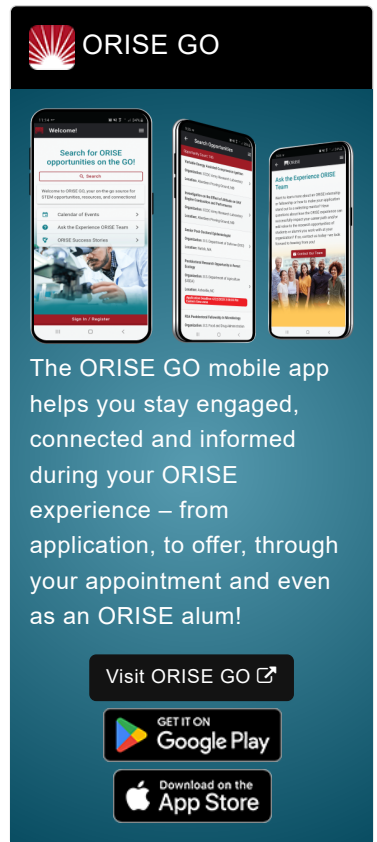

Description A research opportunity is currently available with the Nutrition Branch, in the Division of Nutrition, Physical Activity, and Obesity (DNPAO) within the National Chronic Disease Prevention and Health Promotion (NCCDPHP) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

This project will provide training in the area of maternal and child nutrition, including breastfeeding, complementary feeding, micronutrients, and the development of healthy dietary patterns. The research participant will collaborate with others to synthesize the science, identify research and surveillance gaps, and translate the science into public health actions for different aspects of nutrition in pregnancy and through the first two years of life.

Under the guidance of a mentor, the participant will be trained in the following research activities:

- Building public health skills in research, synthesis, translation, and dissemination of evidence on social, environmental, and policy factors related to maternal and child nutrition. The majority of the research focuses on pregnancy through two years of age
- Contributing to the development of guidance documents and written reports with an emphasis on environmental and policy strategies to help address critical factors related to a healthy pregnancy, support for breastfeeding and optimal early child nutrition in clinical settings, childcare settings, and state public health systems
- Analyzing data and contributing to the development of translation products on maternal and child nutrition
- Synthesizing information and communicating with partners and to the general public
- Focused learning on gestational weight gain, breastfeeding, complementary feeding, micronutrient status, and the establishment of healthy dietary patterns that will help inform the development of a comprehensive DNPAO strategic plan on maternal and child nutrition
- Participating in interdisciplinary groups and interacting with experts including public health nutritionists, health education specialists, evaluation specialists, maternal and pediatric health care providers, and epidemiologists
- Conducting systematic reviews of the scientific literature on the health effects of multiple health behaviors and practices during pregnancy and the first two years of a child's life
- Analyzing data and contributing to manuscripts on key topics related to maternal and child nutrition; reviewing data for indicators to be included in DNPAO's interactive data portal

Opportunity Title: CDC Infant Nutrition Fellowship

Opportunity Reference Code: CDC-NCCDPHP-2019-0160

- Contributing to the preparation of briefing documents on policy and program for review by public health leaders, policy makers, hospital administrators, etc.

Anticipated Appointment Start Date: August 27, 2019

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and CDC. The initial appointment can be up to one year, but may be renewed upon recommendation of CDC contingent on the availability of funds. The participant will receive a monthly stipend commensurate with educational level and experience. Proof of health insurance is required for participation in this program. The appointment is full-time at CDC in the Atlanta, Georgia, area. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits.

Qualifications The qualified candidate should have received a master's or doctoral degree in one of the relevant fields, or be currently pursuing one of the degrees and will reach completion by the start date of the appointment. Degree must have been received within five years of the appointment start date.

Preferred skills:

- Coursework in epidemiology, statistics, basic nutrition, and/or maternal and child health
- Knowledge with policy, systems, or environmental change approaches
- Experience in at least one of the following: infant and child feeding, nutrition, obesity
- Experience conducting statistical analyses with statistical software systems such as: SAS, SPSS, Stata or R

Eligibility Requirements

- **Degree:** Master's Degree or Doctoral Degree received within the last 60 months or anticipated to be received by 8/27/2019 11:59:00 PM.
- **Discipline(s):**
 - **Life Health and Medical Sciences** (3 )
 - **Mathematics and Statistics** (1 )
