

Opportunity Title: CDC Health Economics Fellowship **Opportunity Reference Code:** CDC-NCIPC-2019-0174

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-NCIPC-2019-0174

How to Apply A complete application consists of:

- An application
- Transcripts Click here for detailed information about acceptable transcripts
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

If you have questions, send an email to <u>ORISE.CDC.NCIPC@orau.org</u>. Please include the reference code for this opportunity in your email.

Application Deadline 8/23/2019 3:00:00 PM Eastern Time Zone

Description *Applications will be reviewed on a rolling-basis.

A research opportunity is currently available with the Health Economics and Policy Research Team (HEPRT), Statistics, Programming and Economics Branch (SPEB), Division of Analysis, Research and Practice Integration (DARPI), within the National Center for Injury Prevention and Control (NCIPC), at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

The Division of Analysis, Research and Practice Integration (DARPI) leads crosscutting work that connects science to public health practice and drives actions that reduce injuries and violence. It works to establish a sustainable injury and violence prevention foundation at the federal, state, local, territorial and tribal levels. It does this through its expertise in surveillance, statistics, economics, informatics, program implementation, translational research and evaluation.

Under the guidance of a mentor, the participant will be involved in the following research activities:

- Learn to do estimates of economic burden of injury and violence using the most updated methodology and data
- Increase understanding of how socioeconomic status and sociodemographic factors affect injury and violence
- Learn to apply rigorous scientific processes to plan, analyze, synthesize and translate research to demonstrate the effectiveness of injury and violence prevention programs in realworld settings
- Describe the impact of alternative prevention options to maximize the impact of scarce prevention resources

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and CDC. The initial appointment can be up to one year, but may be renewed upon recommendation of CDC contingent on the availability of funds. The participant will receive a monthly stipend commensurate with educational level and experience. Proof of health insurance is required for participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits.
