

**Opportunity Title:** Research into Metrics and Performance Analysis in Intrusion

**Opportunity Reference Code:** ARL-C-CISD-8922798403

**Organization** DEVCOM Army Research Laboratory

**Reference Code** ARL-C-CISD-8922798403

### **Description About the Research**

Challenging research opportunities exist in continuous monitoring, identifying metrics, developing models, and analyzing performance for intrusion detection systems and networks. Specific opportunities exist in the following areas: (i) identifying metrics and continuous monitoring techniques for assessing cyber vulnerability and degree of adversarial activity over wired and wireless networks with distributed intrusion detection sensors, (ii) developing experimentally-validated models and computing performance by analyzing, simulating, and/or emulating network traffic, intrusions, false positives and negatives, (iii) data fusion, filtering, and secure aggregation in networks with intrusion detection sensors and possibly mobile nodes, and (iv) validation methods for intrusion detection models, systems, and tools.

*ARL Advisor:* Hasan Cam

### **About CISD**

The Computational and Information Sciences Directorate (CISD) conducts research in a variety of disciplines relevant to achieving and implementing the so-called digital battlefield. Problems address the sensing, distribution, analysis, and display of information in the modern battle space. CISD research focuses on four major areas: communications, atmospheric modeling, battlefield visualization, and computing

### **About ARL-RAP**

The [Army Research Laboratory Research Associateship Program](#) (ARL-RAP) is designed to significantly increase the involvement of creative and highly trained scientists and engineers from academia and industry in scientific and technical areas of interest and relevance to the Army. Scientists and Engineers at the CCDC Army Research Laboratory (ARL) help shape and execute the Army's program for meeting the challenge of developing technologies that will support Army forces in meeting future operational needs by pursuing scientific research and technological developments in diverse fields such as: applied mathematics, atmospheric characterization, simulation and human modeling, digital/optical signal processing, nanotechnology, material science and technology, multifunctional technology, combustion processes, propulsion and flight physics, communication and networking, and computational and information sciences.

### **A complete application includes:**

- **Curriculum Vitae or Resume**
- **Three References Forms**
  - An email with a link to the reference form will be available in

 ORAU Pathfinder  

Whether you are just starting your career or already at a senior level, ORAU offers internships, fellowships, research opportunities, and contract positions that can provide you with invaluable experience. Download the ORAU Pathfinder mobile app and find the right opportunity to propel you along your career path!

**Opportunity Title:** Research into Metrics and Performance Analysis in Intrusion

**Opportunity Reference Code:** ARL-C-CISD-8922798403

Zintellect to the applicant upon completion of the on-line application.  
Please send this email to persons you have selected to complete a reference.

- References should be from persons familiar with your educational and professional qualifications (include your thesis or dissertation advisor, if applicable)

- **Transcripts**

- Transcript verifying receipt of degree must be submitted with the application. Student/unofficial copy is acceptable

If selected by an advisor the participant will also be required to write a **research proposal** to submit to the ARL-RAP review panel for :

- Research topic should relate to a specific opportunity at ARL (see [Research Areas](#))
- The objective of the research topic should be clear and have a defined outcome
- Explain the direction you plan to pursue
- Include expected period for completing the study
- Include a brief background such as preparation and motivation for the research
- References of published efforts may be used to improve the proposal

A link to upload the proposal will be provided to the applicant once the advisor has made their selection.

**Questions about this opportunity?** Please email

[ARLFellowship@oraui.org](mailto:ARLFellowship@oraui.org)

**Eligibility Requirements**

- **Citizenship:** U.S. Citizen Only
- **Degree:** Doctoral Degree.
- **Academic Level(s):** Faculty.
- **Discipline(s):**
  - **Chemistry and Materials Sciences** ([12](#))
  - **Computer, Information, and Data Sciences** ([16](#))
  - **Earth and Geosciences** ([21](#))
  - **Engineering** ([27](#))
  - **Environmental and Marine Sciences** ([14](#))
  - **Mathematics and Statistics** ([10](#))
  - **Physics** ([16](#))
  - **Science & Engineering-related** ([1](#))
- **Age:** Must be 18 years of age
