

Opportunity Title: FDA Postdoctoral Fellowship in Bacterial Pathogenesis and Vaccinology

Opportunity Reference Code: FDA-CBER-2020-0001

Organization U.S. Food and Drug Administration (FDA)

Reference Code FDA-CBER-2020-0001

How to Apply A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation

All documents must be in English or include an official English translation.

If you have questions, send an email to ORISE.FDA.CBER@orau.org. Please include the reference code for this opportunity in your email.

Application Deadline 4/29/2020 3:00:00 PM Eastern Time Zone

Description ***Applications will be reviewed on a rolling-basis.**

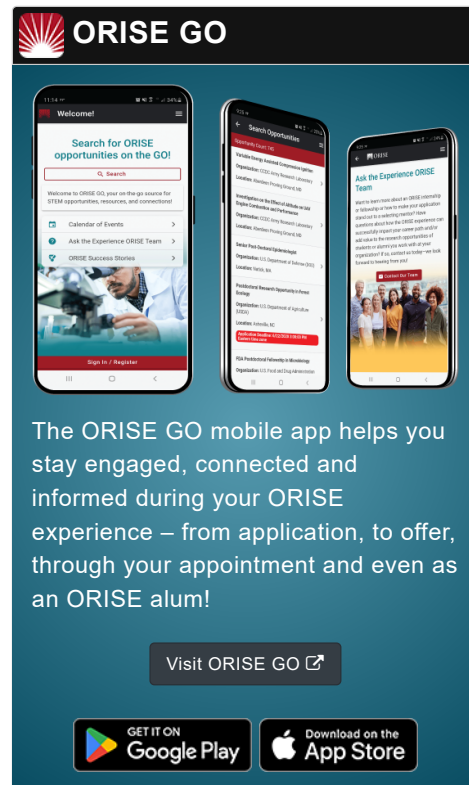

A research opportunity is currently available in the Office of Vaccines Research and Review (OVRR) at the Center for Biologics Evaluation and Research (CBER), U.S. Food and Drug Administration (FDA) located in Silver Spring, Maryland.

Under the guidance of a mentor, the participant will conduct biomedical research focused on the pathogenesis of *Bordetella pertussis* including the characterization of host-pathogen interactions. The goal of the project will be the identification of critical virulence factors and the evaluation of new antigens for inclusion in next-generation pertussis vaccines. The participant will be involved in the experimental design and execution, data analysis, and preparation of publications for associated projects. The participant will receive training in microbiology, bacterial genetics, immunology and animal models of infectious disease.

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and FDA. The initial appointment is for one year, but may be renewed upon recommendation of FDA contingent on the availability of funds. The participant will receive a monthly stipend commensurate with educational level and experience. Proof of health insurance is required for participation in this program. The appointment is full-time at FDA in the Silver Spring, Maryland, area. Participants do not become employees of FDA, DOE or the program administrator, and there are no employment-related benefits.

Completion of a successful background investigation by the Office of Personnel Management is required for an applicant to be on-boarded at FDA. OPM can complete a background investigation only for individuals, including non-US Citizens, who have resided in the US for a total of three of the past five years.

FDA requires ORISE participants to read and sign their FDA Education and Training Agreement within 30 days of his/her start date, setting forth the conditions and expectations for his/her educational appointment at the agency. This agreement

Opportunity Title: FDA Postdoctoral Fellowship in Bacterial Pathogenesis and Vaccinology

Opportunity Reference Code: FDA-CBER-2020-0001

covers such topics as the following:

- Non-employee nature of the ORISE appointment;
- Prohibition on ORISE Fellows performing inherently governmental functions;
- Obligation of ORISE Fellows to convey all necessary rights to the FDA regarding intellectual property conceived or first reduced to practice during their fellowship;
- The fact that research materials and laboratory notebooks are the property of the FDA;
- ORISE fellow's obligation to protect and not to further disclose or use non-public information.

Qualifications

The qualified candidate should have received a doctoral degree in one of the relevant fields. Degree must have been received within five years of the appointment start date.

Preferred skills:

- Background in microbial, molecular, biochemical or cellular techniques
- Biomedical research utilizing animal models

Eligibility Requirements

- **Degree:** Doctoral Degree received within the last 60 month(s).
- **Discipline(s):**
 - **Life Health and Medical Sciences** (9 )
