

Opportunity Title: CDC Health Communications Fellowship

Opportunity Reference Code: CDC-NCEH-2020-0029

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-NCEH-2020-0029

How to Apply A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

If you have questions, send an email to ORISE.CDC.NCEH@oraui.org. Please include the reference code for this opportunity in your email.

Application Deadline 12/7/2020 11:59:00 PM Eastern Time Zone

Description *Applications will be reviewed on a rolling-basis.

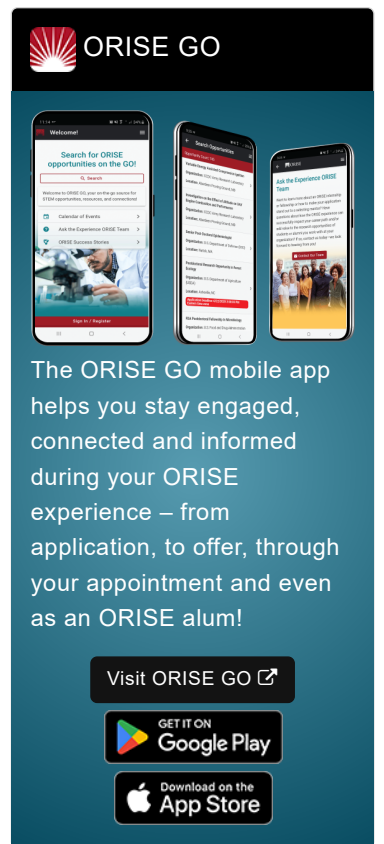

A research opportunity is currently available with the Division of Environmental Health Science and Practice (DEHSP) of the National Center for Environmental Health (NCEH) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

DEHSP promotes and protects the health and quality of life of all people in the United States through conducting environmental health science and improving environmental health services. Its mission is supported by surveillance, epidemiologic studies, technical assistance, training, and emergency response activities through programs that provide critical environmental health capacity for state, tribal, local, and territorial health departments and other agencies with related responsibilities.

The participant will gain experience in the Lead Poisoning Prevention and Environmental Health Tracking Branch as part of the Childhood Lead Poisoning Prevention Program's surveillance and prevention activities.

The selected participant will have the opportunity to interact closely with public health program professionals in various roles and to be involved in diverse activities, including:

- Contributing to the development of messages and communication materials such as fact sheets, program briefings, program summaries, program briefs, web pages, and social media content. The participant will learn or improve skills in developing materials targeted for specific audience.
- Conducting communications research, literature or health communication scans. The participant will learn or improve skills in researching, compiling, and synthesizing complex information from multiple sources.
- Drafting health education materials and messages for outreach and dissemination through a variety of communication channels. The participant will learn or improve skills in using various communication media.
- Collaborating with internal and external groups on health communication and marketing of program priorities. The participant will learn or improve skills in interacting with a wide variety of professionals from various perspectives.

Opportunity Title: CDC Health Communications Fellowship

Opportunity Reference Code: CDC-NCEH-2020-0029

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and CDC. The initial appointment can be up to one year, but may be renewed upon recommendation of CDC contingent on the availability of funds. The participant will receive a monthly stipend commensurate with educational level and experience. A relocation allowance will not be provided. Proof of health insurance is required for participation in this program. The appointment is full-time at CDC in the Atlanta, Georgia, area. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits.

Qualifications The qualified candidate should have received a bachelor's, master's or doctoral degree in one of the relevant fields. Degree must have been received within five years of the appointment start date.

Preferred skills:

- Knowledge of public health terminology and communication principles, methods, practices and technique

- Eligibility Requirements**

- **Citizenship:** U.S. Citizen Only
 - **Degree:** Bachelor's Degree, Master's Degree, or Doctoral Degree received within the last 60 month(s).
 - **Discipline(s):**
 - **Communications and Graphics Design** ([1](#) )
 - **Life Health and Medical Sciences** ([1](#) )
