Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-CGH-2020-0215

How to Apply *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

If you have questions, send an email to ORISE.CDC.CGH@orau.org. Please include the reference code for this opportunity in your email.

Application Deadline 10/14/2020 3:00:00 PM Eastern Time Zone

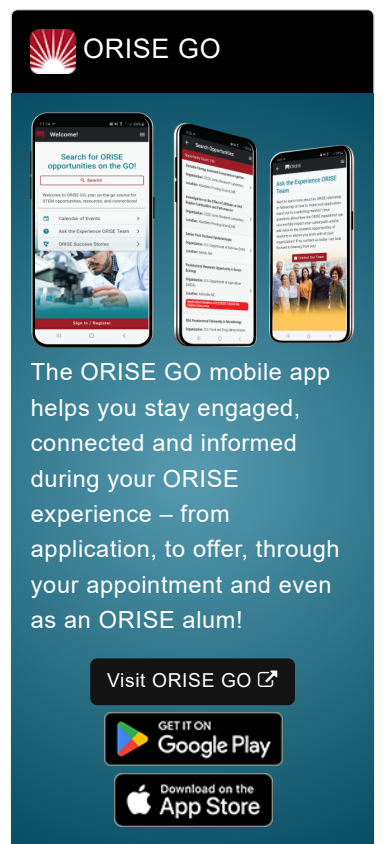

Description A fellowship opportunity is currently available at the Center for Global Health, Division of Global Noncommunicable Diseases Branch (GNCDDB), at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

The participant will be involved in activities to help convey critical public health scientific and programmatic information to a variety of target audiences through the branch and division's internal and external communications channels, including traditional media relations, partner engagement and social media outreach. He/She will utilize numerous communications best practices to reach the target audience and communicate about key global health priorities. There may also be opportunities to assist with program communication and coordination activities in certain countries.

The fellow will have the opportunity to support GNCDDB staff, including health communicators, health scientists and management on a variety of communications activities and may be involved in the following activities:

- Conducting communications research and data tracking and developing reports documenting reach from press releases and other media outreach.
- Translating scientific language for various audiences, and ensuring research findings are properly disseminated.
- Writing content for the web, and information for social media channels.
- Consulting with branch staff and helping research, crafting and disseminating strategic messages that resonate with specific audiences, cultures, initiatives and campaigns.
- Assuring scientific accuracy of all web and print messages and materials.

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and CDC. The initial appointment can be up to one year, but may be renewed upon recommendation of CDC contingent on the availability of funds. The participant will receive a monthly stipend commensurate with educational level and experience.
