Description The EPA National Student Services Contract has an immediate opening for a full time Water Research and Communication Support position with the Office of Research and Development at the EPA facility in Cincinnati, OH.

The Office of Research and Development at the EPA supports high-quality research to improve the scientific basis for decisions on national environmental issues and help EPA achieve its environmental goals. Research is conducted in a broad range of environmental areas by scientists in EPA laboratories and at universities across the country.

What the EPA project is about

The Center for Environmental Solutions and Emergency Response (CESER) plans, coordinates and conducts an applied, customer-driven, national research and development program to improve decision making by EPA, federal, state, tribal and local agencies, when faced with challenging environmental problems in the built environment. Within CESER, the Water Infrastructure Division (WID) conducts customer-driven research and support, providing scientific leadership on national-scale problems associated with water quality in the built infrastructure.

What experience and skills will you gain?

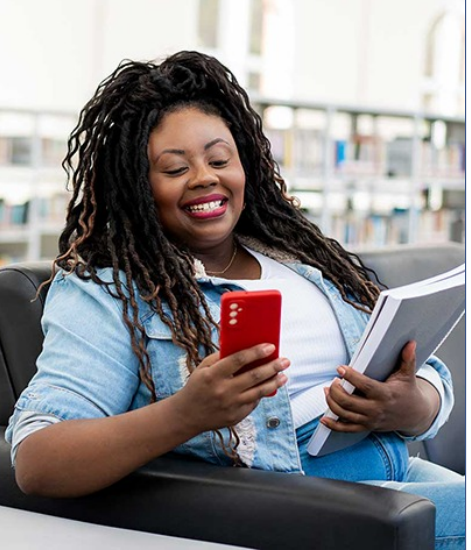

Included in WID's activities is technical support to states, EPA Regions, drinking water consultants, and drinking water systems. This support encompasses a wide variety of contaminants and drinking water system issues, furthering EPA's research while also providing valuable support back to the individual stakeholders.

How you will apply your skills

As a team member, you will provide data management, data analysis, and communications support to WID staff by completing the research activities described below:

- Compiling data contained in Word documents, Excel
