Description ***Applications will be reviewed on a rolling-basis.**

The U.S. Federal Bureau of Investigation (FBI) Critical Incident Response Group (CIRG) consists of a cadre of special agents and professional support personnel who provide expertise in crisis management, hostage rescue, surveillance and aviation, hazardous devices mitigation, crisis negotiations, behavioral analysis, and tactical operations.

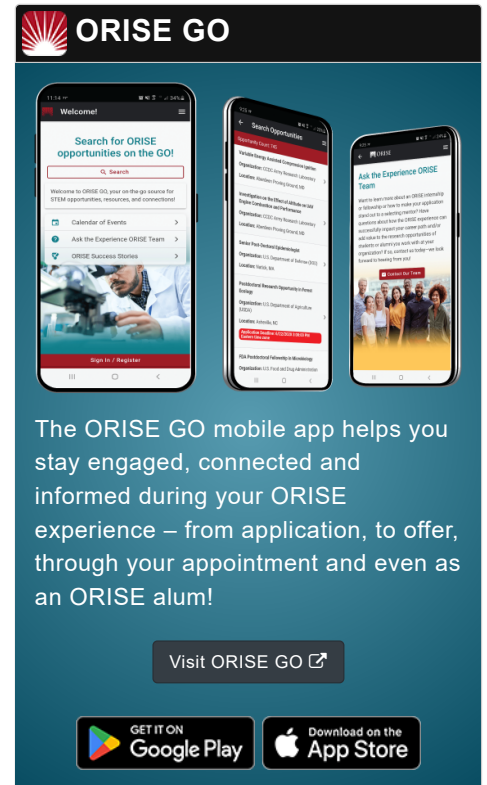

ORISE is continuing normal program operations during the COVID-19 pandemic. This opportunity will be offered as long as the FBI Laboratory is able to complete the onboarding process and ensure a meaningful experience to participants. We encourage you to apply and submit your application as soon as possible. Updates to this opportunity will be provided on this page as needed.

What will I be doing? As a participant with the Critical Incident Response Group (CIRG) Visiting Scientist Program (VSP), you will have an opportunity to enhance your professional development and increase your research capabilities and contributions by participating in critical incident response research initiatives utilizing state-of-the-art equipment under the mentorship of CIRG scientists. The VSP will expose you to a work environment in a high security government facility and provides an opportunity to perform research in areas of interest unique to law enforcement and national security.

You may be involved in research including:

- Crisis management;
- Hazardous devices disruption;
- Crisis negotiations;
- Behavioral analysis and assessments;
- Strategic information dissemination;
- Tactical and technical operations;
- Ground and air surveillance;
- Aviation support;
- Special events management; and
- Rapid deployment logistics.

Under the guidance of a mentor, you may be involved in some or all of the following:
